The Secretary then stated, that Government had directed the proper officer to prepare plans of the intended Buildings at the King's Inns: whereupon, the Board Ordered, That the Secretary do urge the immediate execution of such Order, with the concurrence of the Committee of Observation, &c.

Monday, 3 April 1815.

AND that, at a subsequent Meeting, held at the House of the Right Honourable the Lord Chancellor, on Monday the 3d day of April 1815, the recommendations of the Committee of Observation, &c. respecting Schedules and Inventories, and the Order of the Board, made on the 3d day of August 1811, having been considered; It was ordered, That Mr. Hardiman and Mr. Fowler, and such other Assistants and Clerks as may be considered necessary, should forthwith proceed in such manner as should be approved of by the Committee of Observation, and under their immediate direction, to carry said Order respecting Schedules and Inventories into complete effect.

The transfer of the Patent Rolls in Bermingham Tower having been then taken into consideration; The Board Ordered, That their proceedings in this matter be laid before Government, with a request, that means may be taken to enforce obedience to their Order, for transferring those Rolls to the Record Room of the Rolls Office.

The Board having then read that part of the Report of the Committee of Observation, containing their recommendation respecting the preparing of the Acta Regia Hibernica; and the Rev. Edward Groves and Edmund Hyde Hall, Esq. appearing to be properly qualified for conducting and arranging said work; It was Ordered, That the said Edward Groves and Edmund Hyde Hall, together with the persons already appointed to such Duties; viz. Mr. Tresham and Mr. Erck, under the immediate direction and controul of the Committee of Observation, &c. as heretofore, should proceed on said work forthwith, and prepare same for fair transcript, or for press, as the Board may deem advisable.

The Board then requested that the Chancellor would be pleased to repeat his communications with Government, on the important subject of Parish Registers, during the investigation of the Population of Ireland, then before the Imperial Parliament.

AND

AND that, at a subsequent Meeting, at the Office of the Right Honourable the Chief Secretary of the Lord Lieutenant, on Monday 22d January 1816, the Secretary having stated, that, pursuant to the Order of the Board, he had communicated with Mr. Caley respecting the proposed searches in England for Irish Statutes, and had transmitted to him a detailed Statement of the objects of research prepared by the Statute Sub-Commissioners, and that he had received an answer to said Communication, which having been laid before the Board, and having been read; It was Ordered, That the same be taken into consideration, with the several Reports and Proceedings of the Sub-Commissioners on the Statutes, at the next Meeting of the Board; and that the Committee of Observation be requested, in the mean time, to examine the proceedings of the said Sub-Commissioners, to consider the Plan of searches therein referred to, and to report fully thereon. Monday, 22 January 1816.

The Secretary then stated, that, pursuant to the Order of the Board, and shortly after the last Meeting, he had conveyed a Communication from the Lord Chancellor to the Chief Secretary of the Lord Lieutenant, on the subject of Parish Registers; whereupon, the Chief Secretary stated, That the measure stood over since the last Session, as it could not be brought forward from the lateness of the period at which the communication was made.

The Sixth Half-yearly Report of the Committee of Observation, &c. having been then read; It was Ordered, That they be requested to continue their superintendance of the progress making in the Record Buildings of the King's Inns, to open a Communication with the Commissioners of Wide Streets, and take means for ascertaining with them, the best mode for carrying their Plan for insulating the Four Courts into complete effect; and that they should report particularly the persons whose residence endangers, in any manner, the safe keeping of Records in the Offices connected with the Four Courts, and under what authority such persons reside there.

The Board then Ordered, That an Extract from the said Report, respecting the enrolments of Judgments in the Common Pleas, should be laid before the Right Honourable the Lord Norbury, with a request, that his Lordship would be pleased to enquire into the facts therein stated, and to report same to this Board against their next Meeting, together with such means as his Lordship may think advisable for remedying the evil therein reported on.

It was then stated, with respect to the transfer of the Patent Rolls in Birmingham Tower, That the proceedings of the Board had been laid before Government, and that means would be taken to enforce obedience to their Order for transferring these Rolls to the Record Room of the Rolls Office.

The Recommendations of the Committee of Observation, &c. with respect to Printing, were then taken into consideration, and the same having been approved of; It was Ordered, That the First Volume of the Calendar of the Patent Rolls should be forthwith put to press, agreeably to the Recommendations of the said Committee, under their controul, and the immediate inspection of such Sub-Commissioner or Sub-Commissioners as may be selected by them for the purpose.

That part of the Secretary's Second General Report, which relates to the making of a Fac Simile and Engraving of the Down Survey, was then read, as also the Report of the Committee of this Board; in which it is stated, "That much of the remaining parts of the Survey is in very bad condition, and likely to grow rapidly worse, and perhaps, at no very distant period, will be almost destroyed;" and the Board having taken the whole subject into consideration, Ordered, That a Fac Simile should be formed of the several Maps of the Down Survey, under the superintendance of the Committee of Observation, &c. and that they should take means for carrying this Order into effect, and report to the Board fully thereon, and on the expediency of their being engraved.

A Communication was then made by the Secretary respecting the distribution of the 300 Copies of the Reports and Proceedings of this Board, printed by Authority of the House of Commons, which had been placed at our disposal; of which distribution the Board having approved; It was Ordered, That the remaining Copies be preserved in the Record Tower, in the care of the Secretary: and that he do write, in the name of this Board, to the Right Honourable the Speaker, expressing our thanks for his obliging attention in directing the above-mentioned Copies to be transmitted to this part of The United Kingdom.

AND that, at a Meeting of the said Commissioners, at the House of the Right Honourable the Lord High Chancellor, on Monday the 25th day of March instant, being the date of this our Annual Report, the Minutes of the last Board, holden on Monday the 22d day of January 1816, were read: Also, the special Report of the Committee of Observation, &c. respecting searches for Irish Statutes; the Statement of the Sub-Commissioners on the Statutes Monday, 25 March 1816.

Statutes relative thereto, and their Seventeenth, Eighteenth, Nineteenth, and Twentieth Quarterly Reports: Whereupon, the Board Ordered, agreeably to the Recommendation in the Report of the Committee of Observation, &c. That Mr. Connor should proceed to London forthwith, and make research for Copies of Irish Statutes relating to this Country, in such Repositories, there and elsewhere in England, as he may have reason to think most likely to contain the same; and that he should collate such as he may find, with other Copies, or make Transcripts of them, as he may consider most advisable; with power to procure in England, or send over for such necessary assistance as the nature and extent of the work may appear to him to require; and that he should report his proceedings under said Order to the Board at our next Meeting.

And lastly, We beg leave most humbly to state to Your Royal Highness, That, at the present time, we have not any other matters to offer to Your Royal Highness's consideration, touching or concerning the premises, or any further Measures to propose thereupon.

All which is most humbly submitted to YOUR ROYAL HIGHNESS's consideration,

It was then Ordered, That the Secretary should write, in the name of this Board, to the Chief Secretary of the Lord Lieutenant, submitting, That, in their opinion, it would be desirable to have the roof of the Rolls Office put into a state of permanent repair. And it was also Ordered, That the Records of the Common Pleas Office should undergo an arrangement, previously to the formation of an Inventory of its contents; calling, however, on the proper Officers for their co-operation and assistance.

The Board having then considered that part of the half-yearly Report respecting a transfer of the Patent and Close Rolls therein mentioned, from the Chief Remembrancer's to the Rolls Office; and as it appeared, that they had not then been able to report on all the Documents of that description in the Office; It was Ordered, That the Committee should ascertain all the Rolls which ought to be removed, and report thereon, previously to the Transfer taking place.

After which, the Board having taken into consideration that part of the Report of the Committee of Observation, &c. relating to their Proceedings upon the Down Survey, and their Recommendation that Messrs. Harding and Fowler, two of the Sub-Commissioners on the Surveyor General's Office, should be ordered to repair to Headfort, to examine the Books and Papers there; It was Ordered, That Messrs. Harding and Fowler should repair to Headfort for that purpose, and report specially to this Board the result of their Proceedings; and that the Secretary should take the necessary means for obtaining access for them.

The Board having caused the several Proceedings under the Commission, since its commencement, to be laid before them, and deeming it expedient that a general view should be taken of the progress which had been made in the several Departments, as well as of the measures which it would be requisite to adopt, for the purpose of finally carrying into complete effect the object of the Legislature with respect to the Public Records of Ireland; It was Ordered, That the Committee of Observation, &c. be directed to report to the Board the several Proceedings which have been undertaken under the Commission, from its commencement to the present time, and the progress made; specifying the several Works that have been completed; and stating the Measures and Proceedings which might still be requisite, for the purpose of finally carrying into complete effect the objects for which the present Commission was formed.

Special Reports from two of the Sub-Commissioners on the Rolls Office were read; viz. one from Mr. Mayne, respecting the Decrees, dated 12th March last; and another from Mr. Francis Nash, dated the 8th of March instant, with Appendixes, exhibiting Plans of the present arrangement of the Pleadings in the Record Room; together with a Supplemental Report from Mr. Mayne, respecting the arrangement of the stopped Pleadings; containing several Observations and Suggestions, which the above-named Sub-Commissioners thought it their duty to lay before the Board, on the completion of their respective Works; when the Board Ordered, That the same should be referred to the Committee, for reporting upon any of the Suggestions which it might be necessary to act upon hereafter; and at the instance of the Master of the Rolls, it was also Ordered, That a Copy of the said Report made by Mr. Nash, should be furnished to the Rolls Office, to be there kept along with the Drawings of the Ground Plan of the Record Room of said Office, and the Section of the Shelves over the Presses in the said Record Room; and that the Deputy Keeper of the Rolls should be at liberty to attend and assist the Committee of Observation in proceeding under the Order of the Board then made, in relation to the References made to them respecting the Rolls Office.

Monday. 24th March 1817. AND that, at a Meeting of the said Commissioners, at the House of the Right Honourable the Lord High Chancellor, on Monday the 24th day of March instant, being the Date of this our Annual Report, the 21st, 22d, 23d, and 24th Quarterly Reports of progress made by the Sub-Commissioners on the Statutes and Ordinances; as also a Report of Searches in England, made by Mr. Connor, pursuant to the Order of the Board, dated the 25th of March last, with the several Appendixes to said Report, were then read; and the Board Ordered, That the Secretary should preserve said Report of Searches in the Tower, for the use of the Sub-Commissioners employed in forming the new Edition of the Statutes, &c.

And lastly, We beg leave most humbly to state to Your Royal Highness, That at the present time We have not any other matters to offer to Your Royal Highness's consideration, touching or concerning the premises, or any further Measures to propose thereon.

All which is most humbly submitted to YOUR ROYAL HIGHNESS's consideration.

APPENDIX

TO THE EIGHTH ANNUAL REPORT.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

The REPORT of the Sub-Commissioners on the *Headfort* Books and Papers.

REPORT, Sub-Commissioners on the Headfort books and papers.

PURSUANT to the Order of the Board, dated the 17th of March 1817, we, the undersigned Sub-Commissioners on the Surveyor-General's Office, proceeded to the seat of the Marquis of Headfort, in the County of Meath: and having viewed the Books and Papers there, connected with the object of our Mission, we have arranged and classed them under the following Heads; viz.

I. MAPS; consisting of

1. Sir William Petty's printed County Maps, complete.
2. A large Collection of MS. Barony Maps, apparently Copies of those from which Vallancey's Copy was formed.
3. A few MS. Maps of Parishes, which appear to be Copies from the Down Survey.
4. A small Number of Miscellaneous Maps, both MS. and printed.

II. BOOKS; consisting of

1. A Set of Books of Survey and Distribution, nearly complete.
2. Another Copy of the same, less perfect than the foregoing.
3. An unfinished Copy of the same, unbound.
4. Another Set, apparently the Strafford Survey of Galway, Mayo, Roscommon, and Clare.
5. A Set of Books, apparently Originals, which we conceive to be a Part of the Civil Survey, viz. for the Counties of Dublin, Kildare, Meath, Wexford, Waterford, Tipperary, Limerick, Londonderry, Donegall, and Tyrone.
6. A small Lot of Miscellaneous Books and Papers.

The foregoing MAPS and BOOKS are more particularly described in the following Report; to which we have annexed the APPENDIX A and B.

A. Containing a Copy of An Original List of the Parts of the Down and Civil Survey at Headfort; found in an Envelope, and signed (Headfort).—p. 25 *infra*.

B. Containing a Synoptical View of the Four Copies of Books of Survey and Distribution; showing at one view the Baronies contained in each Set.—p. 27 *infra*.

WE

REPORT, Sub-Commissioners on the Headfort books and papers.

WE further beg leave to observe, That the foregoing Set of Barony Maps, from the smallness of their Number, being but about One-third of the whole Number of Baronies surveyed by Sir William Petty, as well as from the unfinished state in which several of them have been left, cannot in anywise be considered as an adequate Substitute for the Down Survey; but we conceive the Books to be worthy the Attention of the Board, particularly those of Survey and Distribution, some of which are enriched with References to the Books of Decrees and Certificates, which References are not in the Books of Survey and Distribution in the Auditor General's or Surveyor General's Offices; and the Books of Civil Survey we consider as Originals, and containing much valuable Information; all of which has been lost to the Public since the Fire of 1711.

All which is respectfully submitted, this 30th day of June 1817.

Henry Harding,
John Fowler.

Sub-Commissioners.

The Special Report of the Committee of Observation.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

THE SPECIAL REPORT of the COMMITTEE OF OBSERVATION, &c. made pursuant to Orders dated the 17th day of March 1817, and the 19th day of May last; whereby it is Ordered, That the Committee of Observation be directed to report the several Proceedings, which have been undertaken under the Commission, from its commencement to the present time; and the Progress made;—specifying, the several Works that have been completed; and stating, the Measures and Proceedings, which may still be requisite for the purpose of finally carrying the Objects for which the Commission was formed, into complete effect.

FOR the purpose of affording a distinct view of the several Proceedings, which have been taken under the Board since its formation, it is proposed to arrange the subject chronologically; and (taking up the other Heads of inquiry directed by the foregoing Order, according as convenient opportunities for discussing them may occur) to state shortly the several Proceedings had, in the order in which they arose.

The Record Commission, which bears date the 30th day of August 1810, was not in active operation until February 1811; the intermediate time having been occupied in ascertaining the contents of the several Record Repositories, by means of Queries directed by the Board, and transmitted by their Secretary to the respective Officers and Keepers of such Repositories. In adopting this process, measures were taken, not only for ascertaining the contents of those Repositories, but also for collecting such local information as might be useful in the progress of the Commission. The result was laid before the Board at their second Meeting, on the 18th of February 1811, in a Report made by the Secretary on the several Answers returned to the transmitted Queries. Sub-Commissioners were then appointed by the Board to arrange and methodize, and to form Catalogues, Repertories and Indexes to the contents of the following Repositories; viz. 1. BIRMINGHAM TOWER; 2. PARLIAMENTARY RECORD OFFICE; 3. ROLLS OFFICE; 4. CHIEF REMEMBRANCER'S OFFICE; and 5. AUDITOR GENERAL'S OFFICE.

At this Meeting Sub-Commissioners were also appointed to prepare and print an authentic Edition of the IRISH STATUTES, according to the Plan adopted in England; and the Board, in the following month, made its first Annual Report of Proceedings to His Royal Highness the Prince Regent.

At this period it appears, that considerable difficulties presented themselves, arising principally from the deranged state of the Records, and the very imperfect knowledge of their contents possessed by those persons in whose custody they had been placed; two or three only of whom had been found competent to read the more ancient Writings. The state of disorder and confusion into which the Records of the principal Repositories of Ireland had fallen, is very fully detailed in Lord Chancellor Redesdale's Report upon the subject to the Earl of Hardwicke, and in the Reports of the English Sub-Commissioners, who visited Ireland in 1806 and 1812. In addition to this, it is to be observed, that, with the exception of Lodge's MS. Works, there did not exist, in any Repository, a single Calendar, Repertory, Index, or Inventory, that the Commission could avail itself of in the progress of its labours, or by any correction render useful to the Public. All was to be done anew, and the pile raised from the foundation.

In the year 1812, Returns having been obtained from all the Record Repositories, Sub-Commissioners were appointed for arranging and methodizing the contents of the STATE PAPERS and of the PREROGATIVE and FIRST FRUIT OFFICES. At the same time the subject of SCHEDULES AND INVENTORIES of the Books and

II. SPECIAL REPORT of the Committee of Observation.

and Papers in the SURVEYOR GENERAL'S OFFICE, and of the Maps of the DOWN SURVEY, appears also to have engaged the attention of the Board; and, accordingly, a Committee from their own body, investigated and reported upon various important matters connected with that valuable Record. The attention of the Commissioners appears further to have been directed to that part of the late Mr. Lodge's MSS. containing a LIST OF PATENTEE OFFICES, which they directed to be prepared for publication. In the following year they ordered one of their Sub-Commissioners to complete the CATALOGUE of the MSS. of Trinity College for printing: and in 1814, when some progress had been made in the principal Offices and Repositories, Sub-Commissioners were appointed to complete the ACTA REGIA HIBERNICA, a work that had been commenced by the late Mr. Lodge, and found among his Manuscripts.

In thus reviewing the several Proceedings which have been set on foot by the Commission since its commencement, it appears to us, that the attention of His Majesty's Commissioners has been directed, in conformity with the powers vested in them, not only to the arrangement, preservation and more convenient use of the contents of the principal Record Repositories in Ireland; but also to such works as will bring to light and preserve many authentic Memorials of the Property, Laws and Government of this part of the United Kingdom. The DIOCESAN and COUNTY RECORDS, and the necessity of their complete security and preservation, came also under the consideration of the Board; but as measures respecting them were necessarily postponed, until some progress should have been made in the principal Repositories in Dublin, the subject may be more correctly mentioned under another head of this Report.

For the purpose of exhibiting a distinct and accurate view of the actual state of the Progress which has been made under the authority of the several Orders above mentioned, we called on the respective Sub-Commissioners for Returns of their several proceedings. From these Returns, compared with and checked by the Annual and other Reports and proceedings of the Board, a TABULAR DIGEST has been prepared, and arranged under the several Heads of,——I. BUILDINGS;—II. CATALOGUES, CALENDARS, INDEXES, &c.;—III. TRANSFERS;—IV. TRANSCRIPTION;—V. PRINTING. This Document, as affording a summary view of the several Measures and Proceedings of this Commission, with the actual result and present state of the Works executed or carrying on under their direction, we have subjoined, and beg leave to refer to it in the Appendix to this Report.

Among the principal Measures which appear by this Digest to have been carried into effect, it may not be irrelevant to notice the following:

I. BUILDINGS.

WITH respect to BUILDINGS.—Various measures recommended by the Board under this Head have been carried into execution, or are now proceeding on by His Majesty's Government, in conformity with the views of the Commissioners. The RECORD TOWER in the Lower Castle Yard has been fitted up as a Record Repository, containing the following Offices; viz.—1. First Fruits Office: 2. Board of Public Records: 3. Waiting Room, &c. 4. State-Paper Room: 5. Parliamentary Record Room: 6. Parliamentary Record Office: 7. Surveyor General's Office: 8. Sub-Commissioners of Records: 9. Birmingham Tower Record Room: 10. Ulster's Record Room.—Progress is making in fitting up the Buildings at the KING'S INNS, for a Registry of Deeds, &c. and Plans and Estimates have been formed for insulating the LAW OFFICES adjoining the Four Courts, so as to protect the Records lodged therein from the hazard of injury or destruction by Fire.

II. CATALOGUES, &c.

With respect to CATALOGUES, CALENDARS, INDEXES, &c.—The preparatory arrangement of the Records in the Tower, Rolls and other principal offices (one of the weightiest and most important works undertaken by the Board) has been accomplished by considerable personal exertions and labour. Catalogues have been formed of the contents of the Record Tower, and of the Rolls and Inquisitions, and other important Documents in the Rolls and Chief Remembrancer's Offices. To the early Rolls, and to the Inquisitions, complete Calendars and Repertories have been formed, and the revision and further condensation of these for the press, considerably advanced. Indexes have been made to Books and Documents in the Auditor General's Office, of the greatest value, and most frequent reference. The arrangement and security of the Down Survey, by backing and binding all the Maps, need only to be shortly mentioned as another Work completed; that Record, and all the enquiries connected with it, having come so frequently and fully under the view of the Board.

Under this Head also, the formation of General Inventories or Press Catalogues of the Contents of the several Offices and Repositories, appears to claim particular notice. This necessary measure was at first intended to have been carried into effect by the respective Officers and Keepers of each Repository; but experience has proved the execution of such Works impracticable, unless by persons employed under the authority of the present Commission. The Report of the Sub-Commissioners appointed to that duty (a copy of which, with a copious Appendix, has been laid before the Board) shews, that this useful measure has been carried into effect in the Record Tower, and in some of the principal Offices at the Four Courts. In others of them,

as

as specified in the subjoined Report on the Law Offices, its execution is only retarded by the difficulty of arrangement, occasioned by the multiplicity of Records crowded into too narrow spaces; and the Committee are so strongly impressed with the importance of this Measure, both in the ease it will afford to research, and the check it will oppose to embezzlement or official neglect, that they feel it incumbent upon them to represent the absolute necessity of providing room for the Records of these several Offices with all practicable expedition.

III. Transfers.

Under the Head of Transfers, we have, in the first instance to state, That the large mass of Equity Pleadings, which were discovered among the Auditor General's Records in the Dome of the Four Courts, have been removed to the Roll's Office; in addition to which, several Chasms in the series of Patent and Close Rolls, in the latter Repository, have been filled up, by the transfer of upwards of fifty Rolls of the same kind, which were formerly lodged among the Bermingham Tower Records; thereby accomplishing an arrangement deemed necessary by Mr. Lodge, and strongly recommended by the English Sub-Commissioners on their visit to Ireland in 1806.

Under this Head also, may be noticed the endeavours of the Board to place on a more respectable and useful footing the Parish Registers of Ireland; and while we regret that the Provisions of the Bill, which passed into a Law for England, were not extended to this part of the Empire, as recommended by the Board in their Annual Report to the Prince Regent; yet we trust, that at no distant period, their representations will operate to procure some legislative measure, which may guard those evidences of Titles and Pedigrees from that spoliation and confusion, to which they have been hitherto, unhappily, too much exposed.

IV. Transcription.

Among the various matters that are included under the Head of Transcription, we have particularly to notice the Transcript of the Regal Visitation Books, in the Prerogative Office, and of the Indexes formed to the Auditor General's Records; as also, the transcript of the Repertory to the Decrees of Chancery; a work which, when its Indexes shall have been completed, will, we think, be found useful in facilitating researches among that important class of Records.

V. Printing.

From the difficulty that has occurred in making arrangements for printing Record Works on an extensive scale, in this country, we are not, under this Head, enabled to state further progress, than that the printing of the Calendar to the Patent and Close Rolls, and of the Repertory to the Inquisitions, has been commenced: but a large collection of materials has been prepared, and is ready for the press; which, now that the preliminary impediments are surmounted, will, it is hoped, be proceeded upon with as much despatch, as may be consistent with the accuracy which such works require.

Of the principal of these Works (the intended edition of the Statutes of Ireland, previous to the Union) the first 16 Volumes, it is expected, will be completely ready for the Press about the 1st of March next.

Of the Collection of Documents, under the Title of Acta Regia Hibernica, upwards of 3,000 fairly written pages have been formed, taken principally from the most ancient Records, and containing, among other Matters, Articles of Agreement and Treaties with the Chieftains of the Irish Septs; Documents relating to the dissolution of Religious Houses; and a Collection of Charters of Incorporation to Cities, Towns, and other public Bodies.

The Catalogue to the MSS. in Trinity College, Dublin, a Collection hitherto but imperfectly known, is also nearly ready for Printing; and the List of Patentee Officers, originally found among Lodge's MS. Collection, is preparing for the Press; and will, when completed, afford valuable information respecting the several Offices connected with the administration of the Laws and Government of Ireland.

In addition to the above-mentioned Collections, Arrangements have been made for obtaining a Transcript of Pope Nicholas's Taxation, which was found amongst the Records of the Exchequer at Westminster, a specimen of which we have subjoined to this Report; and, as a proper Supplement thereto, Transcripts have since been made of the Bishops' Return Books in the First Fruits Office in Ireland, and of the Regal Visitation Books in the Prerogative Office, Trinity College, and Marsh's Library. We have only further, under this Head, to state, that for the purpose of ascertaining the magnitude and extent of the several Works proposed to be printed, we have directed an Estimate to be made of the number of Volumes in which they may be comprized, and beg leave to refer to it in the Appendix to the Report.

II. SPECIAL REPORT of the Committee of Observation.

On taking into our consideration the remaining part of the Order of the Board, it seems imperative on the Committee to extend their view beyond the Business and Departments in which Sub-Commissioners have been hitherto employed; so that the subject divides itself into the Heads,—1st, Measures still requisite for completing the Objects of the Board, in those Repositories in which Sub-Commissioners are already employed; and, 2dly, Measures requisite in other Repositories, concerning which the Board have not hitherto issued any specific Orders. For the purpose of obtaining the most satisfactory Information in regard to those Departments on which Sub-Commissioners are engaged, such Sub-Commissioners have been called upon, respectively, for Statements on the subject, under the expectation that their local knowledge and experience would afford information that might be useful in complying with the Order of the Board. The Observations contained in these Returns have been digested and placed in the fourth column of the Tabular Digest, already referred to in the Appendix; and, as some of them deserve more particular notice, we beg leave to advert to them here, under the several Heads adopted in the Tabular Digest, and in a preceding part of this Report.

I. Buildings.

The Recommendation of the Sub-Commissioner on the Rolls Office, under this Head, with respect to some Alterations in the Record Room, appears not undeserving of notice. But no question can remain as to the necessity of adopting every means calculated to ensure the general security of the Building in which that Repository is placed. The insulation of the Law Offices adjoining the Courts of Justice, need, therefore, be only mentioned here, in order to draw the attention of Government to the execution of a measure, that has been already so earnestly, and, as it is hoped, not ineffectually urged. In this Building the chief Law Offices, namely, the Prothonotary's Offices of the King's Bench and Common Pleas, and the Pleas Office of the Exchequer, require immediate enlargement, and a new allocation of a great part of their contents, agreeably to the plan already submitted to the Board, in our Report on Buildings in the year 1813.

The completion of the Record Buildings at the King's Inns, requires also to be noticed, as does the necessity of some addition to them, in order to provide for a Court of Delegates, and other Ecclesiastical Courts, not in contemplation on the allocation of the apartments in that Building, and which addition, it is conceived, may be made at a moderate expense, there having been sufficient ground provided for the purpose.

As to proceedings still requisite under this Head, in Repositories concerning which nothing has yet been done by the Board, we have to mention the Diocesan Registries, and the Peace, Crown, and Town Clerks' Offices through Ireland, for the guarding the valuable contents whereof from fire and damp, measures (probably legislative) cannot be too speedily taken. These Records never can be securely preserved in private Buildings, but must always, while so lodged, be subject to destruction, confusion, loss and embezzlement.

II. Catalogues, Calendars, Indexes, &c.

On the Plea and other ancient Rolls, formerly in Birmingham Tower, no other measure has been taken than that of arrangement, by means of the Schedules and Inventories already mentioned. As to the first of these classes of Records, a Calendar, and as to the latter, an Abstract, or a Selection of Extracts of their more important contents, have been suggested; and we beg leave to remark, that some such Measures (as being absolutely necessary for rescuing these ancient Memorials of our Laws and Revenue from oblivion) appear well deserving the consideration of the Board.

The Calendar to the Patent and Close Rolls in the Rolls Office, has been already brought down to the commencement of the Reign of James I.; and it is submitted to the consideration of the Board, whether the period for its conclusion ought not to be fixed at the Revolution in 1688; which remarkable Epoch seems to form the true point of division between ancient and modern Records: the abolition of the feudal tenures twenty-five years before, and other important changes afterwards made in the Constitution, gave a new cast to the Records from about that period, and changed, very materially, the nature of their contents.

With respect to the Patent and Close Rolls, from the Revolution to the beginning of the present Reign, it is submitted to the consideration of the Board, whether it may not be advisable to adopt, as a kind of continuation of the Calendar in question, Mr. Lodge's Work, which, although but a copious Extract of selected Matters, and not purporting to be a complete Abstract, may probably be found either already sufficient for every useful purpose, or by slight improvements, capable of being made so; and, with respect to the Memoranda Rolls, we have directed a more particular Inquiry to be made, not only as to the Contents of those prior to the commencement of the 18th Century, but also of those formed since that period, in order to enable us to consider of the propriety of abstracting the contents of the Decrees recorded in that Office, on the plan that has been adopted with respect to those preserved in the Rolls Office of Chancery.

III. Transfers.

The Measures still requisite under this Head, as far as hath been yet discovered, are these:—A transfer of the Patent Rolls, found in the Chief Remembrancer's Office, from thence to the Rolls Office, and a counter transfer of some Exchequer Rolls from the latter to the former. In completing the formation of Schedules and Inventories, other Mislocations may probably be discovered, which will require similar Measures: these will of course be recommended when they occur. Under the same Head may also be included Two other Measures equally necessary, though not precisely of the same kind; namely, the Removal of the Documents of the Auditor General's Office from the Dome of the Four Courts; and of the contents of the Prerogative Office from Henrietta Street to the Apartments allotted to them respectively at the King's Inns.

IV. Transcription; and, V. Printing.

On the first of these Heads there is nothing, and on the second but little to remark. The Calendar to the Plea Rolls, and the Extracts from the Pipe Rolls, when prepared, will both form fit subjects for printing; and as it has never been hitherto regularly reported, we beg leave to submit, that the collections of Materials respecting the Ecclesiastical Affairs of Ireland, already mentioned, will form a valuable Supplement to the similar Work published by the Board of Records in England.

With respect to those Offices or Repositories on which the Board have not directed Proceedings to be taken, there exists considerable difficulty in specifying, at this time, what Measures and Proceedings may still be requisite for the purpose of finally carrying the Objects of the Commission into complete effect therein; and (with the exception of any general Measures which our experience has enabled us to suggest) we are of opinion, that it would best meet the wishes of the Board, in obtaining authentic Information on this head, to defer any specific Recommendation on the subject, until the formation of the Schedules and Inventories of the Contents of each Office, and the Arrangements which must necessarily precede their formation, may afford the Committee more detailed and distinct views of the various Classes of Records preserved in each Office or Repository. Having already adverted to the necessity and importance of immediately extending this Measure of Schedules and Inventories to every Record Repository in Ireland, we shall now merely beg leave to refer to the several Observations on that head, which appear in the First Volume of Reports and Proceedings of the Board, and the justness of which every day's experience confirms. We beg leave to add, from circumstances that have lately occurred, that the Completion of this Measure will be of considerable value in giving authenticity to the Contents of a Record Repository, as a positive means would then exist for detecting any attempt to deposit in it a false Document; while the genuineness of a true one would be fully and satisfactorily authenticated.

The difficulties which impeded the Committee in the complete execution of the Order referred to them in this respect, first presented themselves in an attempt made to carry it into effect. For that purpose, Two from our Body devoted several days to a minute Inspection of the Law Offices adjoining the Four Courts. The result of that inspection appears in a short Report, containing many Facts and Observations that may be useful on a further consideration of the Subject; and we therefore consider it desirable to preserve this Document in its original form, and have subjoined it in the Appendix annexed to this Report.

All which is respectfully submitted, this 18th day of January 1819.

The REPORT of a Sub-Committee on the Law Offices.

TO THE COMMITTEE OF OBSERVATION, INSPECTION, &c.

PURSUANT to the wishes of the Committee, we, together with Mr. Hardiman, one of the Sub-Commissioners, visited on different days and inspected the Crown Office and Prothonotary's Office of the Court of King's Bench, together with the Filazer's Office of the same Court, and the Pleas Office of the Court of Exchequer; and, in consequence of such Inspection, we now add to this Report, such Suggestions respecting Measures to be taken in the Prothonotary's Office of the Court of Common Pleas, and the other Offices belonging to that Court, as occurred to the Visitors from the Committee on a former occasion, and appear more fully in the Report of the Sub-Commissioners then acting in that Department.

The Three principal Law Offices are, the Prothonotary's Offices of the Court of King's Bench and Court of Common Pleas, together with the Pleas Office of the Court of Exchequer; the Business in which is so similar, and any Suggestions respecting Measures to be adopted in them are so much of the same character, that we would be understood to include these Three Offices in the general Suggestions and Observations which we have placed first in this Report; and shall submit Recommendations relating to each of these Offices in particular, as the subject may introduce them in the progress of it.

In the commencement, we consider it due to the Officers to state, that the arrangement of the Records in their respective Offices, is as good as is consistent with the space allotted to the business of each.

The arrangement of the Records in these Offices, it must be obvious, is a subject of the utmost importance, and one which requires to be first treated of; but it is impossible to offer suggestions respecting their final disposition until sufficient apartments shall have been afforded to the Officers for preserving and conveniently consulting them, and for transacting the current business of their Departments. The present Offices are, in our opinion, altogether inadequate to contain more than one half of the Documents at present lodged in them, with

with sufficient security and convenience, without reckoning on the great and constant accumulation which the business of every term must occasion; respecting the great bulk of which periodical addition, especially in the Court of Common Pleas, a just estimate can only be formed by a personal inspection of the Records, and communication with the Officers.

This accumulation is so great, that the Officers have long felt the greatest inconvenience from it; and if any thing should occur to delay the taking of Measures to remedy the evil resulting from this cause, the subject must force itself upon the attention of persons in authority, as in a very short time, it would be quite impossible to transact the business of these Offices, under the inconvenience that must result from any increase to their Records. Arrangements should, therefore, in our opinion, be forthwith made in these three Offices, to allot sufficient apartments to each, for the safe keeping of the Records at present accumulated in them, and to allow for a reasonable increase for time to come; but as such arrangement, from the occupation of the Buildings already erected at the Four Courts, may be inconvenient or impossible, it might be advisable that the miscellaneous Records, from the commencement, to the beginning of the Reign of His present Majesty, should be moved to a General Repository; a Measure which, from the urgency of the case, has forced itself upon the consideration of the principal officers, who have all agreed in expressing a wish from themselves, that some similar step should be speedily adopted. Here it may be worthy of observation, that the Clerk of the Pleas of the Exchequer has already been obliged, through want of such a Repository, to consign vast quantities of Documents belonging to that Office, to the vaults under the Building, which are thereby subjected to the damp and destruction inseparable from such a situation.

Although, from the want of room, it is quite impossible that any sufficient steps can be at present taken, rightly to arrange and methodize the Records in the several Repositories, yet we conceive that it will be desirable, while on this part of the subject, that we should give our opinion generally as to the Measures which it would be advisable to adopt; supposing that the possession of sufficient space in the Building rendered the suggested arrangement practicable. For the greater precision, we shall divide the Documents contained in these several Repositories, into the following Classes; viz.

Rolls, as Judgments, &c.

Files, comprehending Pleadings, &c. and

Books, containing Entries of, and References to, the two other Classes, Rule Books, &c.

With respect to the Rolls, we have to remark, they are generally preserved with great care, and in such a state of arrangement, as in most cases answers the general purpose of reference: yet we cannot dismiss the subject without referring to a suggestion submitted to the English Board, at an early period of the Commission, and repeated to this Board, respecting the expediency of binding all Rolls in Books, as tending to their preservation, to convenience of reference to the Record, and to the procuring of space in Repositories; but, if the Board should be of opinion that the Rolls should still be preserved in their present form, we then recommend that in all cases they should have envelopes, and should be divided into a convenient size, according as the number in each year or term will admit; having observed, in some cases, that the Rolls made up for a period, in which there were a great many judgments enrolled, have become of a bulk that is extremely inconvenient for reference, and injurious to the Record. In corroboration of this recommendation, it is to be observed, that a similar subdivision has, from the late increase of business, been partially adopted in the Office of the Prothonotary of the Court of Common Pleas, and that the Measure cannot interfere with the reference to the Rolls from the Judgment Books in any of the Offices.

The Files, in which class is included the great Bulk of the Records in all the Courts, comprehend Documents of various descriptions, and, consequently, very different in their value and importance. Those of the greatest value, as for instance, Cognovits, Memorials of assignments of judgments, &c. should, in our opinion, be preserved in portfolios, similarly to the mode in which the Inquisitions in the Rolls Office have been arranged under the Commission; a measure which, we observe, has in no other case been adopted: but the selection of the several species of Records that should be thus preserved, and all minor regulations respecting them, must depend in a great measure on the experience and discrimination of those to whom this duty shall be committed, should this suggestion be eventually agreed to.

As to the Files of other Documents, such as Pleadings, Affidavits, Writs, &c. we recommend that a number of them, to be regulated by their size, should be put together in bundles, with envelopes, stating the contents; and a sufficient quantity may then be put into bags of a convenient size, and labelled, in which way several Records, it appears, have been preserved for centuries in England. In addition to the security and convenience of which arrangement, we have to state, that considerable space will by this process be obtained.

II. SPECIAL REPORT of Committee of Observation.

The principal Books, and of most constant reference in the several Offices, are those termed "Judgment Books;" and which, from being continually consulted, have in most cases been much injured, and are rapidly falling into decay. With respect to these Books, when we consider their great value, and the constant recourse had to them, besides their liability to any fatality that might affect the Record itself, from their being lodged in the same Office, we recommend, that in all cases of Judgments affecting property, transcripts of the Books referring to them should be made out, and after being carefully compared, and properly authenticated, should be lodged in some one Repository. The various benefits which may be expected to result from such a Measure, will far outweigh any consideration of the time and expense which will be required to accomplish it; and, if this Measure be extended to all subsequent Judgments, it may, besides the other benefits referred to, be made the means of insuring their regular enrolment in future.

The Bindings of the old Books, in general, should also be repaired where necessary, as has been heretofore done in the Rolls and other Offices.

To these Suggestions we have only to add, that nothing in the nature of a Calendar or Repertory, similar to those already formed under the Commission, is, in our opinion, required to any of the Records, in any of the Law Offices; but that Inventories of the Contents of each should in every case be formed pursuant to the opinion so often expressed by the Committee, and already acted upon by the Board; previously to the formation of which, the remaining Law Offices, not herein-before mentioned, will require arrangement according to the System acted upon in other Repositories, and recommended in all: But such arrangement in these Offices, from the state in which their Records are preserved, will not, in our opinion, require the expenditure of much time or expense. In offering these Suggestions, we trust that we have adverted to every material Measure, which it will be requisite to resort to, in the several Law Offices, in order to carry the Objects of the Commission into effect; and we feel persuaded, that if any thing of a more minute or of a minor nature should be requisite for the accomplishment of this object, it cannot escape the attention of those who may be concerned in executing the Arrangement, and in forming the Inventory, which we have herein-before recommended.

All which is submitted, this 28th day of October 1818.

SUPPLEMENTAL RETURN ON STATUTES, &c.

WE find, upon reviewing the state of the new Edition of the Statutes upon which we have been employed, that the Translation of a very few Statutes, which we had returned as not finished in March last, still remains to be done, the completion thereof having been partially postponed for the purpose of making progress in Collation. This, together with the Revision thereof, and a very small part of the Research upon the Patent Rolls in Chancery, is all that remains to be done in the Antiquarian Department of the work. In the Collation of the printed Statutes, with the Statute Rolls and Transmisses, we have yet to complete the Four last Volumes and a part of the 16th. The other requisites of Notes, Preface, Catalogues, Tables and Index, remain yet to be done, and it is proposed to proceed with them during the printing of the Work.

(2.)—ACTA REGIA.

THIS Department originated in an Order of the Board, of 8th June 1814, directing "That Sub-Commissioners, appointed for that purpose, do proceed to transcribe such Papers, Charters, and Ancient Documents, as the Committee of Observation shall be of opinion should form part of that Work."

Proceedings commenced in March 1815. The Documents to be comprised in this Collection were determined by the Committee of Observation to be those relating to—

I.—CIVIL AFFAIRS, which comprehend
- 1st. Correspondence between the English and Irish Governments.
- 2d. Proclamations.
- 3d. Charters to Cities and other Public Bodies.
- 4th. Grants to Corporations and to Public Functionaries.
- 5th. Documents relating to Fiscal and Commercial Subjects.

II.—ECCLESIASTICAL AFFAIRS, comprehending
- 1st. Formation and Suppression of Religious Establishments.
- 2d. Appointment and Regulation of Ecclesiastical Dignities.
- 3d. Communications on Ecclesiastical Affairs with Foreign Courts.

III.—MILITARY AFFAIRS, comprising Documents relating to
- 1st. The Warfare carried on with the Natives, or with the degenerate English, including Treaties, Submissions and Pardons.
- 2d. Foreign Expeditions.
- 3d. Invasions.

The sources of Information are, the Public Repositories of Records, Public Libraries, and such private Collections as those of the Duke of Devonshire, and of the Marquis of Ormonde.

The portion of time, to which the Researches should extend, has been divided into the following periods :—
- I.—From the English Invasion to the Settlement of Ireland, in the Commencement of the Reign of James I.
- II.—To the Restoration.
- III.—To the Revolution.

The

The Research and Selection of Articles from public Repositories have been nearly completed for the first of these periods, are in progress for the second; and, with the exception of Charters to Cities and Public Bodies, have not been entered upon with respect to the third. No Research has yet been instituted in private Collections.

Of the Documents thus selected, more than 3,000 pages, taken principally from the Records of the first period, already mentioned, have been transcribed; of these, 2,000 have been collated, and are ready for fair transcript or for printing.

Research has been made collaterally into printed Documents, for the purpose of discovering new Sources of Information, and of ascertaining the value of Documents of doubtful character.

The Selection and Transcription of those from the above period to the Revolution.

The Transcription of about 130 Charters and Grants to Cities, Towns, and other public Bodies.

(3.)—ROLLS OFFICE.

To the Committee of Observation, &c. on the Public Records of Ireland.

GENTLEMEN,

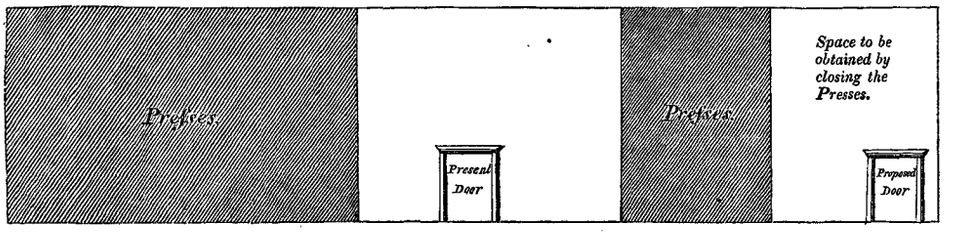
I HAD the honor of submitting to the Master of the Rolls the Substance of the following Statement of Measures conceived necessary for the future careful Arrangement and Preservation of the Records in the Rolls Office, for preventing the indiscriminate Access of the Public to them and facilitating Researches, which His Honor recommended should be laid before you, for your Consideration and Report on the Subject.

In the first place, therefore, I beg leave to suggest the necessity of taking away the Interior Railing of the Upper Record Room (which is exclusively appropriated to the keeping of the Rolls and more Ancient Records), and closing in the Floor; by doing which, a considerable portion of space will be obtained, the great accumulation of dust rising through the aperture from the lower room (which is solely occupied by the Pleadings of the Court of Chancery) will be prevented, the Rolls and Records be better preserved, and more commodious and convenient Places for consulting them can be consequently provided; it is also necessary that some small matters of Carpenter's Work and Plastering should be completed, to give the whole a perfect appearance. In the lower Room I would recommend a strong Canvas Hanging for the upper Shelves, containing the Ancient Pleadings, with the years painted on the Outside; and for the Recesses under the Windows, both above and below, it would be necessary to have a single Shelf in each, with Shutters to close in the Centre; and, finally, that both rooms should be uniformly painted in a light Oak Colour, and the entire appropriately numbered and lettered.

To

II. SPECIAL REPORT of Committee of Observation.

To prevent indiscriminate Access to the Records, and to provide for their better Security, if the Room at present occupied by the Examiners Clerks could be obtained for the use of the Rolls Office, I would beg leave to suggest the propriety of closing up the present Entrance to the Record Room, by bringing the Presses on each side of it to meet, and have the Entrance to the Records through the Room to be obtained, thus—



and that the same should be done in the Under Record Room. The benefit which would attend this change is evident: it would confer additional security, as no person could then have access to the Records without the knowledge of a confidential Clerk or Clerks, who should occupy the Rooms to be thus obtained.

The want of a satisfactory Reference to the Patent Rolls has been long a matter of serious inconvenience to the Public, and no small diminution to the income of the Office. When the Calendar of the Contents of the Patent Rolls, preparing by the Record Commission, shall be finished, it will afford a very complete Reference to the end of the reign of Elizabeth. But to supply from that time to the year 1760, being the period most referred to, a Transcript of Lodge's MSS. might be made with considerable utility, and deposited in the Office for the purposes of Reference.

The Advantages which would accrue to the Records, the Office, and the Public, by carrying the foregoing Suggestions into execution, would, as appears to me, be very considerable; and, therefore, hoping this may meet your Approbation,

I have the Honor to be,
Gentlemen,
Your obedient and very humble Servant,
James Hardiman,
Sub-Comr on the Rolls Office.

Report of the Sub-Commissioners on Schedules and Inventories.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

WE, the Sub-Commissioners appointed by an Order of this Honourable Board, dated the 3d day of April 1815, to proceed with such Assistants and Clerks as might be considered necessary, and in such manner as might be approved of by the Committee of Observation, and under their immediate Direction, to carry the Order of the 31st day of July 1811, respecting Schedules and Inventories, into complete effect, beg leave to submit to the Board the Measures which we have pursued in obedience to said Order.

In the commencement, we have to state, that in some of the Repositories herein-after detailed, having found partial Schedules of some parts of their Contents, formed by Sub-Commissioners under the Orders of the Board, we considered it incumbent upon us to revise such Schedules for the purpose of insuring Uniformity, as well as Accuracy and Precision in the Execution of the Plan adopted; and are now enabled to report that complete Classified Schedules and Inventories have been formed (and will be found in the Appendix to this Report) of the valuable and voluminous Contents of the following Departments, comprising the most important and extensive Record Repositories in this part of the United Kingdom:—1. The Birmingham Tower Record Room: 2. Parliamentary Record Office: 3. The State Paper Room: And, 4. The Surveyor General's Office: all in the Record Tower in the Lower Castle Yard: 5. The Auditor General's Office in the Lower Castle Yard, and also in the Dome of the Four Courts: 6. The Rolls Office: 7. The Chief Remembrancer's Office, adjoining the Four Courts: The Forfeiture Office, in the Custom House: 8. The Quit Rent Office, in the same: And, 9. The Office of the Court of Prerogative at the King's Inns.

(1.)—The Birmingham Tower Record Room.

THIS being considered the principal Repository for Ancient Records in Ireland, we deem it proper to commence with it.

The Records deposited here are,—

I.—Plea Rolls of the Court of Common Pleas, and Rolls of Pleas, holden before the Justices in Eyre, from Henry III. to Elizabeth.

II.—Great and Small Rolls of the Pipe, commencing in the 13th year of Hen. III. and ending the 3d of Geo. II.; but with many Chasms.

III.—Miscellaneous Rolls, consisting of,—1. Summonisters; 2. Sheriffs Accounts; 3. Proceedings of Justices Itinerant and of Gaol Delivery; 4. Rolls of Attornment; 5. Escheators; 6. Estreats; 7. Recognizances; 8. Recusants; 9. Pardons; 10. Inquisitions on Attainder, &c.; besides some Books of Reference, and many volumes of Sheriffs Accounts, and Antient Orders of the Court of Exchequer.

At the commencement of our Proceedings in this Department, we found a list of the Plea, Patent and Close Rolls; and also of the Pipe, Summonister, and other Rolls, preserved here, which we examined; but as it contained little more than the Years of the Reigns of each King, and the Rolls in each Year and Reign, it proved of no use towards expediting our Proceedings. Of the entire, therefore, of the Rolls and Books already enumerated, we formed a General Inventory, in Chronological Order, particularly distinguishing each Class, and preserving the ancient Marks of Reference and external Inscriptions. We have also taken an Account of the Number of Membranes or Parchment Leaves contained in each of the Plea and Pipe Rolls, and

III. REPORT, Sub-Commissioners on Schedules and Inventories.

and given an Account of the State of Preservation of the Records, particularly when damaged or imperfect, and concluded by such general Observations on each Roll as suggested themselves during the course of our progress. We have also carefully arranged in the Presses each Class of Records, so that, when the Rolls shall be numbered agreeably to the Schedule annexed to this Report, every Record may be found with the greatest facility.

(2.)—Parliamentary Record Office.

OF the great quantity of Records belonging to the late Houses of Lords and Commons of Ireland, preserved in this Office, an Arrangement has been made, and concurrent Schedules and Inventories formed, under the Orders of the Board. From these Schedules, which are extremely voluminous, an Inventory in a more abridged form has been prepared, which will be found in the Appendix. This Inventory we have carefully collated with the Original, and, from our knowledge of the Nature and Arrangement of the Records, consider it to have been formed in a very judicious manner, as well to afford Information to the Public, as to identify the Original Documents, and facilitate Access to them for any purpose of research or reference.

(3.)—State Paper Room.

THIS Department contains a considerable Number of Documents of great consequence, chiefly relating to the Affairs of the Government of this Country, and principally since the Revolution; but there are a great many Volumes of Books from the Privy Council Office, formed during the Usurpation of Cromwell. All these Documents and Books have undergone a very particular Arrangement and Classification by the Orders of the Board, and an Inventory of them has also been formed, which we have carefully collated with the Originals, and, as it proved, in every particular correct, and appeared fully to answer all the purposes of affording easy Reference to the various kinds of Records, and of giving such Information to the Public of their Contents, as from the nature of those Documents it may be necessary or judicious to publish, it has been accordingly annexed to this Report, as the first particular Notification of many curious Documents, which may hereafter become highly interesting to those who may investigate the former State of this part of the United Kingdom; and also as containing Entries of many Articles which may elucidate the former state of the Law and Finance of the Country.

(4.)—Surveyor General's Office.

IN the First Volume of the Reports and Proceedings under the Board, a valuable Report of the Committee on the Down Survey preserved in this Office, together with an accurate List of all the Maps, has been given; after which, the only Matters preserved in this Repository, that remained for Examination, were the several Reports and Papers connected with the Court of Claims in the Reign of Charles II., and which, accordingly, have undergone a minute Investigation by the Sub-Commissioners on this Office, who have formed a General Classified Schedule of those various Documents, amongst which there appear many of an important nature. This Schedule we have also examined with the Originals, and carefully collated, and it is also annexed hereto, as containing a curious and interesting Account of a valuable Class of Records, which preserve many of the Particulars that took place on the disposal and adjudication of Property under the Acts of Settlement.

(5.)—Auditor General's Office.

THE Classified Schedule and Inventory of this extensive and valuable Office, has been compiled by the Sub-Commissioners employed on it, and comprehends a great variety of important Public Muniments, consisting of some thousands of Volumes of Books, and a very numerous collection of Rolls, Papers, and other Documents, relating to the former State and Transactions of this Country, civil, legal, military and ecclesiastical. In forming the Inventory of its Contents, every care has been taken to give as comprehensive a View of each Class of Records as could be done consistently with their state of Arrangement, and with the Brevity which it was necessary to observe, amidst such a quantity of Materials. We have carefully examined and collated this Inventory; and whether considering the accurate Manner in which it has been formed, or the Value of its Contents, and the probable Benefits which may result from adding to the Stock of Public Knowledge such an important body of Domestic Information, we may with safety conclude, that a more valuable Document of this nature has been seldom laid open to Public Inspection, than the Inventory of the Contents of the Office of the Auditor General of Ireland.

(6.)—Rolls Office.

THE particular Classes of Records preserved in the Rolls Office, of which Schedules and Inventories have been formed, are,—

1. The Statute Rolls:—These Records, during the latter period of the existence of the Irish Parliament, were formed in the Office of the Clerk of the Parliament, and by him transmitted to the Rolls Office, without any Classification or System of Arrangement, where they lay in an undistinguished heap of confusion, until regulated under the Order of this Board, by the Sub-Commissioners and their Assistants, by whom an Inventory of these Rolls was also formed, when so regulated, commencing with a small Roll of Exemplifications of Acts of Parliament held at York in the Reign of Edward III. and continued from thence to the Union of Great Britain and Ireland. This Inventory we carefully revised and collated, and found correct, and have accordingly added it hereto. It will be found to include the ancient Marks or Inscriptions on each Roll; the Number of Membranes of which the Roll is composed, and the Acts of Parliament enrolled on them; which, independently of ascertaining and identifying those important Original Enrolments of the Laws of the Country, has enabled the Sub-Commissioners appointed under the Board, to prepare a new and correct Edition of the Statutes of Ireland, to proceed with greater facility than they could otherwise possibly have done in collating same for the Press.

2. Patent and Close Rolls:—A Classified Schedule of the Patent and Close Rolls of Chancery was formed at the Commencement of the Proceedings under the Commission, by the late Mr. William Nash, one of the Sub-Commissioners on this Repository: this we have revised and collated, and found it to contain an accurate View of so much of those Documents as were preserved in the Rolls Office when it was formed; but since that time a quantity of Records of a similar kind having been discovered by the Sub-Commissioners in the Office of the Chief Remembrancer of the Court of Exchequer, and a Transfer of several Rolls of the same description, from Birmingham Tower to the Rolls Office, having been made, the Schedule so formed became defective, as embracing only such Records of this class as were known to be in the Rolls Office at the time of its formation. This Deficiency has been supplied, on the same plan as that adopted by Mr. Nash; the present Schedule, therefore, contains every particular necessary to identify and convey an accurate description of each Roll.

3. Inquisitions Post Mortem, and on Attainder:—Although these Documents afford the most authentic Information concerning the former State of Families and Property in Ireland, they lay in the Record Room of the Rolls Office for many years previous to the Proceedings under the Commission, in a state of utter confusion, and were going fast to decay. The Process adopted for their Arrangement and future Preservation, will be found fully detailed in the various periodical Returns and Reports which have been made to the Board. The Classified Schedule of the Inquisitions, formed under the direction of the Committee of Observation, affords a Chronological View of these Records, distributed into Provinces and Counties, of the Times and Places when and where taken, and the Names of those to whom the Inquisitions relate. This Schedule, which was intended to precede the Repertory of the Contents of those Documents prepared for the Press, we have carefully revised and collated with the Original Records.

4. Pleadings;—5. Recognizance Rolls;—6. Miscellaneous Records;—and, 7. Old Books of Reference:—Of these various Classes, amongst which there are many valuable Documents, Schedules have been formed adapted to the nature of each, and will be found subjoined to this Report, accompanied by such Observations as suggested themselves at the respective times of their formation, explanatory of the Nature and State of the Originals.

(7.)—Chief Remembrancer's Office.

ALTHOUGH this ancient and extensive Office was always known to contain many valuable Records, yet as they lay in a Mass, unexplored, except on very special occasions, their value and particular Contents were entirely unknown, until brought to light by the labours of the Sub-Commissioners acting under this Board.

1.—A copious Inventory of the Memoranda Rolls, being the principal Record here preserved, was highly necessary, and has been accordingly formed. These Rolls commence in the First Year of the Reign of Edward II., and contain a valuable Fund of Information from that period downward, highly interesting as they relate to the ancient legal Practice of the Court, to the Transfer and Disposition, Rights and Privileges attached to Property, and as they illustrate several Matters connected with the general History of the Country.

III. REPORT, Sub-Commissioners, on Schedules and Inventories.

No Books of Reference to their Contents being extant in the Office, the formation of an Inventory became the more necessary, and when formed it served to guide the Sub-Commissioners in their other Researches in this Department. Although the Memoranda Rolls do not go back farther than 1st Edward II., the Inventory commences with a Roll of Common Pleas of the 6th Edward I., which is the oldest Record in the Office; and there being but very few of a similar nature amongst the Memoranda Rolls, it was thought advisable to suffer them to remain in the same Inventory, which thus gives, in Chronological Order, an Account of those Records from the 6th of Edward I., comprising the Ancient Marks and Inscriptions on each Roll; the leading Name in the First two Articles, so as completely to designate the Original; the Number of Membranes which each Roll contains; and, finally, its General Contents: thus affording, in one collective view, every particular necessary to ascertain the identity of the Record.

2.—Rolls of Decrees of Innocent Papists; and Connaught Certificates or Decrees of Persons who were transplanted to Connaught after the Civil Wars of 1641:—Of these Rolls, a Classified Schedule has been formed by the principal Sub-Commissioner on this Department, the Copy of which we have collated with his Original Draft.

3.—Inquisitions:—In this Office there are preserved Inquisitions of various kinds; viz. Inquisitions of Valuation of Ecclesiastical Livings, and on the Suppression of Monasteries, which throw considerable light on the Rights and Property of the Church. There are also various Transcripts of Inquisitions Post Mortem, and on Attainder. The Contents of this Collection, though equally important with that in the Rolls Office, and, perhaps, in some instances, more so, particularly those relating to Ecclesiastical Affairs, were heretofore little, if at all, known; after they had therefore undergone a minute Chronological Arrangement into Provinces and Counties, a Classified Schedule was formed of them, with the utmost care, on the same plan as that already described to have been formed of the Inquisitions in the Rolls Office. This accordingly completes the Inventory of the Inquisitions of every kind now known to remain of Record in Ireland, except a few enrolled in the Birmingham Tower Record Office, as noticed in the Inventory of that Department. In the last place, we have to observe under this Head, that we have added from this Repository a copious List, taken from the Memoranda Roll of the 2d Anne, of the several Deeds, Books, and Papers relating to the Forfeitures of 1688, which now remain in the Forfeiture Office in the Custom House of Dublin.

(8.)—Quit Rent Office.

IN the First Volume of the Reports and Proceedings under the Board, page 146, there is a short Return from the Clerk of the Quit Rents in Ireland, of the Books and Records contained in this Office. From the brief manner in which they are referred to, but particularly from the great number of Volumes which by the Return the Office appeared to contain (amongst which it was stated, that there was a Book of Maps of the Down Survey), we judged it necessary to visit and inspect this Department, and, if possible, to obtain a more precise and accurate Account of the Nature and Contents of these various Documents, their general State of Preservation, and probable Value and Importance. On this occasion all our Inquiries were satisfactorily answered by the Assistant Clerk in this Department, who also furnished us with a Schedule of the Contents of the Office, which is hereto subjoined, and which it is supposed may be attended with some utility, as it is very probable that several of the Record Books may serve to fill up chasms which may exist in other Departments. They are in general in good Preservation, with the exception of the Book of Maps above alluded to, which is quite loose in the binding, whereby the Preservation of the Maps is endangered. This Volume, which we consider as the only remaining one of an Original Series, formerly lodged in the Quit Rent Office, contains several of the Barony Maps of the Counties of Louth, Westmeath, Eastmeath, Limerick, Waterford, Tipperary, King's County and Queen's County, which possess all the Marks of being authentic and Original Records; and, as far as they extend, supply the Deficiencies which the late General Vallancey and Major Taylor were sent to Paris to make up, from the Set of the Baronial Maps of the Down Survey preserved in the French King's Library. This important Volume of Maps, therefore, which supplies so large a chasm in those Records, we recommend to be carefully bound up and protected against future Damage or Casualty; and we would, at the same time, beg leave to suggest the propriety of having it transferred to the Surveyor General's Office, there to be preserved and referred to, amongst the other Maps; and we do so more particularly, conceiving that no loss can thereby be incurred by this Department, as there is in it but this single Volume of the Maps, which has never been referred to, most probably because its existence has been hitherto unknown to the Public.

9.—Prerogative

(No. 9.)—Prerogative Office.

THE Records of this Department consist of Original Wills and Papers, various Books containing Entries of Wills and Administrations, and several Volumes containing the different Regal and Diocesan Visitations, which from time to time have taken place in Ireland. From the nature of these Documents, it is apparent that a Schedule of the Books only could be formed: this has been accordingly effected by one of the Sub-Commisioners employed in this Department, and is hereto subjoined.

Having thus far detailed the several Repositories, of the Contents of which Schedules and Inventories are hereto subjoined, we beg leave further to state our Proceedings, under said Order, in another Department, the result of which does not, for the reasons which shall be stated, appear in this Supplement. It having appeared to the Committee of Observation that much practical good would result from having an accurate Account of the Records of our Courts of Law, and of the care which was paid to their Arrangement and Preservation, with a Developement of their actual State, it was resolved that we should commence our Proceedings under the Order of the Board with the Court of Common Pleas, which was supposed in consequence of the great increase of Law Business transacted in it, to contain a greater Quantity of Records of various descriptions than any of the other Courts. We accordingly commenced our Proceedings in that Court; and having, in the first instance, formed an accurate Schedule and Inventory of all the Books of every description relating to its Records, to the extent of several hundred Volumes, we then proceeded to form a similar Inventory of all the Rolls of every kind which are there preserved. Having concluded our labours on the Books, and arranged the Rolls of the Court, the remainder of the Records, which were classified by us under the general denomination of Files of various Descriptions, became next the object of our attention; but here we found such a mass of confusion, which had been increasing for years past, owing to the want of room and accommodation, that before we could attempt, or think of forming, any Inventory of such an undistinguishable heap of Records and Parchments, we found it absolutely indispensable to have them previously put into some State of Arrangement; but as this measure would occupy a considerable portion of time and labour, we thought it necessary to apprize the Committee of Observation of the circumstance; who, having submitted it to your Honourable Board, you were pleased to order that we should proceed in such Arrangement, preparatory to our forming the Schedules and Inventories; calling, however, on the Officers of the Court for their co-operation and assistance. But, in the mean time, having undertaken other Offices under the general Order, we have been since so occupied in them as to be unable to resume our Proceedings on the remaining Records in the various Offices of the Court of Common Pleas, pursuant to your Order; and, for that reason, the Inventory of their Contents does not form any part of the present Report.

Upon the whole, we have endeavoured, to the best of our ability, to execute the Duties that were committed to us under the above-mentioned Order, and are enabled to report and certify that the several Schedules, Inventories and Catalogues, which were either formed by us, or which have passed under our review, are true and correct in all particulars, according to the best of our knowledge and belief.

All which we humbly beg leave to submit this 15th day of January 1819.

Report of the Sub-Commissioners on the Birmingham Tower Record Room, Record Tower, Dublin Castle.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

THE Records formerly deposited in that part of the Castle of Dublin known by the name of "Birmingham Tower," were removed, by Order of the Board, to the Apartment, N° 9, in the Record Tower, which was fitted up for their reception. We proceeded by Order to arrange and form Classified Schedules of its Contents, principally consisting of the ancient legal Records of this Kingdom, and containing considerable Information respecting the Laws, History, Antiquities, and general State of the Country, from the year 1230 to a recent period. These Records are divided into,—

1. ROLLS OF COMMON PLEAS;

2. ROLLS OF THE PIPE; and,

3. MISCELLANEOUS ROLLS, and RECORDS of various kinds.

The PLEA ROLLS, besides comprising a History of the Law in this Kingdom, down to Charles I., afford valuable Information relating to the Country in general,—they consist of Pleas of the Crown, Assize of Novel disseisin, Mort d'auncestor, Inquisitions, Pleadings in real Actions respecting Manors, Lands, and Hereditaments, many of them anciently the property of the Crown and Church; Prosecutions for Trespasses in Royal Forests; Actions of Dower, Waste; Writs of right of Advowsons, Darrien Presentment, Quare impedit, and Certioraries from inferior Courts. They also contain enrolments of Appointments of the Justices and Officers of the Courts; Charters, Patents, and Deeds, with many articles of a miscellaneous nature, which may be attributed to the practice that prevailed at an early period, of making such Records, in a great measure, Journals of all proceedings in the Courts.

The ROLLS OF THE PIPE are principally composed of the Returns of the Receipt and Expenditure of the Royal Revenue, contained in Escheators and Sheriffs Accounts; among which are found References to Grants of Lands and Money, &c. made by the different Monarchs; the Value of Ecclesiastical Livings seised into the King's hands, by vacancy of Sees or otherwise; frequent Exemplifications of the Statute of Westminster against Absentees, temp. Henry VI.; Accounts of Laymen's Lands seised into the King's hands; and very frequently contain curious Topographical Information, Prisage of Wines, King's Customs and Revenues, Quit Rents, Wardships, Escheats, &c.; and, in addition to this general Information, both the Plea and Pipe Rolls throw great light on the History of private Property, and the Genealogy of the principal Persons in the Kingdom.

The MISCELLANOUS ROLLS AND RECORDS also contain a great variety of useful and interesting Information.

Previously to forming the subjoined Schedules of these several Records, we found it necessary to arrange the entire in Chronological Order, in the several Presses, as described in the annexed Plate; after which, we proceeded on the formation of the General Schedules or Catalogues; noticing such Rolls as were damaged or imperfect, as already mentioned in our General Report.

Appendix to Report of Sub-Commissioners.

1.—Birmingham Tower.

During our progress, we paid particular attention to the large quantity of mutilated and injured Records, which theretofore lay unexplored; and we were principally induced to do so, by the hope of discovering amongst them some of a more ancient date than the oldest then known to be preserved in this Department, and particularly during the Reigns of Henry II. and King John; but we were disappointed in our expectations; although, in a Manuscript preserved in the Library of Trinity College, Dublin (Class F. Shelf 3, N° 13), which we hereto subjoin,* it is stated that, some time before the year 1680, there was, amongst those Records, a Roll of the Pipe, of the 13th and 14th years of King John: "In eodem archivo sive Turri, est unus rotulus Pipæ añ 13 & 14 R. Joh."—But no such Roll appears at present; and we are inclined to think that no such existed at the time this account was taken; having found the Fragment of a Pipe Roll of the 13th and 14th years of Henry III., which happens to begin with the word Johes (being the Christian Name of the first person occurring on it), and which, from that circumstance, we suppose was mistaken for a Roll of King John. We are, therefore, now enabled, after the most diligent Investigation, to state that the oldest Record at present remaining in the Birmingham Tower Department, is the above Fragment of a Pipe Roll, of the 13th and 14th years of Henry III.

Next to the formation of Calendars and Indexes to these Records, but particularly to the Plea and Pipe Rolls, which are the two most ancient and important classes of Records preserved here; a process, which would at once contribute to their future and permanent Preservation, and render them of more easy and convenient Access, for purposes of reference, would be highly desirable. For effecting both these objects, we beg leave to observe, that the Plea, Pipe, and other Rolls, should be enveloped with strong Parchment, and uniformly labelled or endorsed. The several Fragments and detached Membranes of the Plea and Pipe Rolls should be restored to their original places, when they can with certainty be ascertained; and should any doubt arise as to their proper places, such Fragments and detached Membranes as may remain so undisposed of, should be formed into distinct Fragment Rolls, and placed at the end of each respective Series of their Class. There is a large quantity of detached Membranes of Pipe Rolls, generally in good order, temp. Car. I. and Car. II., which, when so arranged, will supply some considerable chasms that have been observed during those reigns in the Series of Pipe Rolls. A number of Sheriffs Tot Rolls, which had been heretofore cemented by damp, and many of them half burned, should be distributed into their proper counties. Several Files of Writs and Receipts for Fines and forfeited Recognizances, and the burned Rolls and illegible Fragments, should be put into canvas bags and labelled; and the Twenty-four Volumes of Rules of the Court of Exchequer, found here, should be bound; and any Indexes that may be necessary formed for them.

After an Arrangement of this nature, those various Records will be handed down to Posterity, protected from further accidents and destruction; which, considering the value of their Contents, we humbly conceive would be an object of no inconsiderable national importance.

All which is most respectfully submitted, this 27th day of November 1818.

James Hardiman.
John Fowler.

The foregoing is the first instance in which the Plea Rolls appear to be divided into Terms; this distribution seems to have been made in modern times, or at least long after the formation of the Record, which it is evident was originally made up into one yearly Roll. We at first intended to restore them to their original state; but having considered that extracts and references might have been made according to the present numbering, it was judged expedient, as no great degree of inconvenience or disarrangement could result, to suffer them to remain so sub-divided; observing however, throughout, to give priority to the term occurring at the commencement of each reign.

No.	Reign and Year.	Number of Membranes.	Ancient Numbers, and Indorsements.	Press, and Shelf.	HEADINGS AND OBSERVATIONS.
48.	Edward I. A° 28.	28.		R. 6.	This Roll appears to be a duplicate of the Easter Term of the last Roll; it however contains more matter. The 1st memb. of the last corresponds with the 4th of this.
49.	28.	27.	These four Rolls are in one envelope marked No. 33. 28 Ed. I.	- -	This Roll begins memb. 28, and appears to have been considered the continuation of last Roll, the 28th memb. of which is not numbered.
50.	[. .]	39.		- -	This Roll begins memb. 55, and it is represented thereby as a continuation of the two foregoing; but the date on memb. 58, viz. "vicesimo septimo," shews that the numbering, which is modern, must be erroneous.
51.	28.	25.		- -	This Roll begins memb. 95, and was therefore returned as a continuation of the foregoing.
52.	29.	21.	E. primus xxix. Plea Roll, A° 29 Ed. I.	— 6.	[. . . . .] apud Dubl a die Sči Michis in xv dies anno Regni Reg̃. Edwardi vicesimo nono.

54.	29.	22.	No. 114. 29 Ed. I. 1300. No. 35. Ed. I. Plač Corone.	— 7.	This Roll appears to be a duplicate of the foregoing, and is also in tolerably good order.
55.	29.	56.	No. 111. 29 Ed. I. 1299. No. 37. 29 Ed. I. Plač Corone.	— 7.	Placita Corone coram Waltero Lenfaunt, &c. &c. apud Cork a die Pasch̃, &c. anno Regni Regis. Edwardi vicesimo nono.—Some membranes of this Roll appear to be wanting, as membranes 5 and 6 are marked 9 and 10 in an old series of numbers; but the Roll is otherwise in good preservation.
56.	29.	27.	No. 68. 29 Ed. I. 1301. No. 39. 29 Ed. I. Trinity.	— 7.	Essoñ de malo veñ capt̃ apud Dubln in Octab̃ Sče T?nitat̃ anno r. r. Edwardi vicesimo [ ].—Memb. 24 is wanting.

58.	29.	51.	No. 38. 29 Ed. I. Assize Roll, Cork.	— 7.	Rotulus de Attornat̃ as above, apud Cork a die Pasch̃ in xv dies anno Regni Regis Edwardi vicesimo nono.—Very much damaged.
59.	29.	50.	No. 109. 29 Ed. I. 1301. No. 48. 31 Ed. I.	— 7.	This Roll is returned as the 31st Ed. I. but is the 29th. The first membrane is wanting. Memb. 32 is dated "a die Pasche anno Regni Regis Edwardi vicesimo nono."
60.	29.	13.	No. 409, (scarcely legible.) 29 Ed. I. 1301. Plea Roll, A° 29 Ed. I. Mich^{s} No. 40.	— 8.	This Roll appears to be an ill-assorted collection of fragments of Rolls, whether all of the same year or not is perhaps not easy to determine; *e. g.* the first membrane is numbered 23, the second 34, the third 39, the fourth is marked 38, the fifth is another 39, the sixth 68, the last 37, and is headed thus: "Rotulus de Attornatis, &c. &c. coram Waltero Lenfaunt, Roberto de Luttleburi et sociis suis, &c. &c. apud Drogheda in Crastino Eph̃ie Anno Regni Regis Edwardi vicesimo nono."

				Bb. 1.	A Repertorium or Book of short select extracts from the Patent Rolls in Birmingham Tower, commencing 8 Ed. III. and extending, with many interve ning chasms, to 12 Hen. VII. with an Index of Names and Matters under distinct heads. Amongst the Patent Rolls enumerated and abstracted from, are the following, which do not appear to be now in existence. 13th of Ed. III. | 15th of Hen. VI. 32d - - | 21st - Ed. IV. 33d - - | 2d - Hen. VII. 15th - Hen. IV. | 12th - - 5th - Hen. V. | 22d - - The following curious Entry occurs at the commencement of this Book. " Birmingham Tower, Feb. 24. WE, whose Names are under-written, do promise to meet here, if alive, on the 24th February 1754–5, being present at the signing hereof, this 24th of Feb. 1734–5. Antrim: Clot. Skeffington. Willm Ponsonby. Art. Skeffington. Benj. Burton. Skeffy. Smith. R. Tighe. James Smyth. Jo. Stopford. W. Tighe, Cus. Recor Ber. Turr. The above meeting was, by general consent, adjourned to the first day of December 1755." In the course of the recent arrangement of the Rolls and Fragments in the Tower, a Letter was found amongst them, dated Rosanna, March 9th 1755, from the above named W. Tighe, Cust. Recor Turr, to John Lodge, Esq. the then Deputy Keeper, requesting that the foregoing adjournment should be entered in this Book, under the original engagement. But whether the Meeting ever afterwards took place, or not, does not appear.

PARLIAMENTARY RECORD OFFICE.

Report of the Sub-Commissioner on the Parliamentary Record Office.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

Appendix to Report of Sub-Commissioners.

2. *Parliamentary Record Office.*

THE following Catalogue of the Records and other Documents in the Parliamentary Record Office, has been officially prepared to be laid before the Board, and with it, I beg leave to submit for observation, some particulars, not before reported, of the Proceedings in this Department, taken under the authority of the Board, which form the basis of the Classified Schedule or General Index to the Records, and also of the Catalogue; briefly pointing out the advantages which have accrued, and those which doubtless will hereafter accrue to the Public therefrom.

Experience, acquired in the progress of these proceedings, suggested that this was an Office in which a General Index to the Records would be very defective, unless there should be annexed to it a Nomenclature, which accordingly has been proceeded on with as much dispatch as possible, in order, if practicable, to have the Draft thereof completed with the General Index: And it having been found eligible, since the establishment of the Record Commission, to deposit in this Office the Papers of the Suffering Loyalists of the year 1798; an Index to their contents will be found subjoined, by way of Appendix, to that of the Parliamentary Records; and the entire Index to the Office, when finally completed, will contain a reference to between eighty and ninety thousand Records and other Documents, consisting of MS. Books, Parchments and Papers, and some printed Muniments, independently of the printed Journals of the Lords and Commons, and of the printed Statutes.

To enumerate all the Benefits which have accrued, both to the Office and the Public, from the Arrangements made in this Department, and for which the Public are manifestly indebted to the Commission, would occupy too much time at present. I shall therefore now merely observe, that the great National object has been attained, of having the Parliamentary Records of Ireland deposited in a state completely calculated for future preservation: and that an easy and immediate access may now be had to any Record therein contained, on the most reasonable terms;—for instance, any Record in the Office may be readily found, and if a short one, a certified copy of it given for the customary fee of thirteen shillings and four-pence; or a Certificate of a negative search for any Record may be had for the sum of ten shillings: whereas, before the proceedings for their arrangement commenced, the expense of such a search might often, to my knowledge, have amounted to upwards of twenty pounds, owing to the confused state of the Records; and several, not before known to exist, have been brought to light;— for instance, there were very few of the Records of the House of Lords entered in their Journals; but in the following Catalogue they appear under their several heads; and in like manner, those of the Commons which were laid before Committees, not appearing in the Journals, are also now exhibited to view: by which means the Public are informed of the general nature and particulars of the contents of this Repository, which will be found, on inspection of the following Catalogue, to embrace a great variety of original Documents of the highest value, affording authentic information on the momentous subjects of the Laws and Constitution of the Country, and of other affairs of State, both foreign and domestic, during the two last centuries. Among these, it is to be particularly observed, are included Bills both Public and Private, which were proposed in Parliament, and though not passed into Laws, contain abundant information relative to the State of the Country and the Rights of Individuals; information that does not exist elsewhere, but which will be found in the following Catalogue, as fully detailed, as the principle of expedition and conciseness with which that work was to be compiled would admit.

During these Arrangements, an Account was taken of the number and condition of the printed Journals of each House of the Parliament of Ireland, and of such printed copies of the Statutes as remained in the custody of the Keeper of the Parliamentary Records; independently of which, there are in a store-room in the lower yard of Dublin Castle, several volumes of the above-named Journals bound in boards, besides great portions of those of the Commons, unbound; the entire forming a confused mass of Books and Papers, weighing some tons, in a state of decay, occasioned by damp and accumulated dust. These were, by an order of His Majesty's Commissioners, cleansed, and the perfect parcels separated from those which were damaged or imperfect; however, owing to the dampness of the Room, and its contents being so crowded, they are again in such a state of decay, that whenever a set of these Journals are to be taken out, volumes are necessarily thrown aside as useless; but a suitable place for them no doubt will be provided, as a representation on the subject is about to be made to Government.

All which is respectfully submitted, this twenty-second day of December 1818.

J^r^ Dep. Keeper,
& Sub-Com^r^.

The Proceedings of the Commissioners of Suffering Loyalists were commenced in the Parliament House by Members of each House of Parliament, aided by two Judges; and the Papers were preserved with the Parliamentary Records, but in any further respect did not belong to either House. The said first Board of Commissioners acted gratis, and were appointed under the Act 38 Geo. When possession of the Parliament House was given up to the Governors and Company of the Bank of Ireland, the Parliamentary Records and the Suffering Loyalists papers were removed to a house in Anglesea-street, where the Board continued to sit till closed on the 1st of February 1806, by Act in 46th of same Reign. ORDER OF THE SAID COMMISSIONERS, 31st JULY 1811.

"PART of the First Report relating to the State Paper Office, being read, and also an Order made by the Board on the 18th of February last, and mentioned in our former Report respecting it, the Secretary stated that, pursuant thereto, he had written to the Chief Secretary of the Lord Lieutenant; in consequence of which, certain Answers had since been communicated to him by Mr. Taylor of that Office, describing the Books referred to in Mr. Le Bas' Letter, as mentioned in our former Report; without reporting, however, agreeably to the said Order, any plan for effecting the objects pointed out in the several Patents and Grants made from time to time to the Keepers of State Papers."

"After which was also read the said Return from Mr. Taylor, and a Letter from William Monck Mason, Esq., dated the 24th day of June last, offering his Services to this Board in this Department: whereupon, the Board ordered that the said William Monck Mason should be a Sub-Commissioner of this Board, for the purpose of arranging the Books and State Papers of Ireland, whether in the Chief Secretary's Office, or elsewhere, making proper Indexes to the same, and preparing a General Catalogue or Inventory thereof; and that our said Secretary should be joined with the said William Monck Mason, for the purpose of conferring with him in all proceedings to be adopted under this Order."

ORDER OF THE SAID COMMISSIONERS, 30th JANUARY 1812.

"THAT Henry Joseph Monck Mason and Roderick Connor, Esquires, acting as Sub-Commissioners under the authority of this Board, be substituted in the place and stead of the said William Monck Mason, as Sub-Commissioner on the State Paper Office; and that they do proceed, according as their leisure from their other avocations on the Statutes may permit, with the aid and assistance of Richard Francis Sleater LL.B. of the Secretary of State's Office, hereby appointed their Assistant Sub-Commissioner, together with such Assistants as may be deemed necessary from the Secretary's Office, to carry the aforesaid Order of the Board respecting the State Papers into immediate execution."

With the view of carrying into effect the before-mentioned Objects of the Board, the Duties pointed out in the said Orders were commenced, in the Chief Secretary's Office in March 1812, and in the Privy Council Office in July 1814; from which time the Proceedings in these two departments have been continued concurrently, the Records of the former, before their removal from Birmingham Tower, having been mixed with those of the latter.

CHIEF SECRETARY'S OFFICE.

ADVERTING to the before-recited Orders of the Board respecting the Paper, or State Paper Office, and also to their Inquiry as to what means could be taken to complete the objects pointed out in the several Patents relating to that Office, it may not be irrelevant to subjoin the following Extract of the Queen's Letter of 1702, for the purpose of establishing and regulating a Paper Office in Ireland.

> " Right trusty and well-beloved Cousin and Councillor, We greet you well. Whereas our trusty and well-beloved subject, Joshua Dawson, has petitioned us, setting forth that the Chief Governors of our Kingdom of Ireland have been always accustomed, upon their leaving that Kingdom, to take with them all the Books and Entries belonging to both their Secretaries' Offices, wherein were entered all King's Letters, Orders, Warrants, and Letters directed to and given by such Governors, the removal of which has not only been a great injury to our subjects of that Kingdom, for want of Copies of such Orders upon many occasions, but a great prejudice to all succeeding Chief Governors, in being deprived of the Knowledge and Information of what had been done by their Predecessors, Chief Governors of our said Realm;
>
> " We are graciously pleased to grant his request. Our Will and Pleasure therefore is, and We do hereby direct, authorize and command you, by and with the advice of our Council learned in the law there, or some or one of them, to cause effectual Letters Patent to be passed under the Great Seal of our said Kingdom of Ireland, thereby appointing, creating and erecting an Office in that our Kingdom, by the name, style or title of the Paper Office, wherein are to be kept Duplicates or Copies of all Kings' and Queens' Letters whereon any Warrants, Orders or Directions are or should be given, signed or issued by your and our present Justices, and all your and their Successors, Chief Governors of our said Kingdom, and wherein also are to be kept Duplicates or Copies of the Entries of all Warrants, Orders or Directions thereon; and also all other Warrants, Orders, Petitions and Letters which have or shall pass the said Secretaries' Offices, or either of them (Duplicates or Copies of the private Letters of such Chief Governor or Governors only excepted).
>
> " And our further Will and Pleasure is, that you cause a Clause to be inserted in the said Letters Patent, to allow the said Joshua Dawson to take and make Duplicates or Copies of all such Books (except as before excepted), to be by him kept in the said Office, which is to be an Office of Record, and to let out and appoint a convenient Room within our said Castle of Dublin for that purpose, which you are to cause to be fitted up and made proper for the same at our charge and expense; and immediately after to be delivered into the care and keeping of the said Joshua Dawson, to be by him employed for the use aforesaid."

Notwithstanding the explicit Directions contained in the above Queen's Letter, it appears that there are now no Records belonging to the Paper Office, but a few ancient Duplicate Volumes of the nature required; and it is consequently to be inferred, that, very soon after that time, the duties of that Office ceased to be executed as prescribed, and were not afterwards renewed, as it is stated in the Return from the Deputy-Keeper of State Papers, which was made to the Board on the 24th of December 1810, that there are no Records, Rolls, Instruments, Registers or Manuscript Books of any kind belonging to the Keeper of the State Papers.

It may be here observed, that one of the Secretaries, referred to in the said Queen's Letter, transacted the Business of the Provinces of Leinster and Connaught, and the other, that of Ulster and Munster; and that the Business of both is now transacted in the Office of the Chief Secretary to the Lord Lieutenant.

With the view of carrying into execution the Order of the Board, and obtaining as far as possible the advantages contemplated in the Establishment of the Paper Office, it became necessary to resort to the Books and Papers belonging to the Office of the Chief Secretary, which were deposited in the Civil Office and in Birmingham Tower.

The Records of the Chief Secretary's Office consist of Books of Entries, and of original and other Documents, commencing so lately as the year 1697, which may be accounted for by the circumstance alluded to in the above-recited Letter. They relate principally to Charters of Corporations, Creations of Public Institutions, of Peerages and of Baronetages; Conventions, Dissolutions, and other matters relating to Parliament; Successions to Offices; Salaries and Allowances; Lands, Crown and Quit Rents; Alnage, Prizage, Butlerage, Manors, Markets, Fairs, Ferries and Tolls, &c.; Regulations for the different Branches of the Public Service; Licences of various kinds; Dispensations to Fellows of the University; Rewards and Privileges for Mechanical Inventions; Permissions to Families to change Names and Arms; various Writs; Manufactures; Imports and Exports; Embargoes and Quarantine; Coinages; Outlawries and Reversals thereof; Pardons and Protections; Military Operations; Impressments of Seamen; Political Intelligence; Remunerations and Pensions.

The

The Records of this Office accumulated so considerably that a large portion of them were transferred to Birmingham Tower, and became, in course of time, mixed with Records therein belonging to other Offices, but have been since removed from that Tower to the Apartment N° 4 of the Record Tower.

COUNCIL OFFICE.

THE Records of the Privy Council Office in Ireland consist of Books of Entries, and of Original and other Documents, from the year 1630 to the present time. It must be observed, that in the beginning of the year 1711 an accidental Fire took place, which destroyed the greater part of the Records of this Office, and accounts for the chasms previous to that year.

The above-mentioned Books and other Documents contain many proceedings of Government, and a variety of other proceedings, but principally, Acts of State; such as Proclamations issued; Orders for granting General Reprisals, and Commissions and Institutions in consequence thereof; Orders for laying Quarantine, Embargoes, and other Orders of Council; together with Correspondence of various kinds.

As connected in some degree with the Privy Council, it may be observed, that a Court was established in Ireland upon the model of the Star Chamber* in England. This Court was called the Court of Castle Chamber. The Star Chamber was abolished by the English Act of the 16th Ch. II.; and it would appear that the like jurisdiction in Ireland was laid aside about the same time, as the Records belonging to Government, of a later date than 1666, totally omit any Lists, such as had usually been returned from 1577 to 1666, including the Officers of the Castle Chamber in Ireland upon the Civil Establishment.†

The Records belonging to this Office became so numerous, that the majority of them were, as in the case of the Records of the Chief Secretary's Office, formerly transferred to Birmingham Tower, and with several others from the Council Office have been since removed to the Apartment N° 4 in the Record Tower.

The Records remaining in the Chief Secretary's and Privy Council Offices have been completely arranged; and such as are now deposited in N°4 at the Record Tower from both Offices, are classed so that they can be readily referred to, being labelled in bundles, and described in the subjoined Press Catalogue. By these means, and by such Schedules, Inventories, and Indexes, as have been prepared, and by other measures in progress, it is hoped that much desirable Information, which, if attainable at all, was not to be procured without much trouble, may now be easily acquired.

Dated this first day of October 1818.

Henry J. Monck Mason,
Roderick Connor,
Richard Francis Sleater.

* See the several Statutes and a Commission relating to this Court, in Rymer's Fœdera, vol. XVIII, p. 189, Tonson's edition. Some of the documents in the Office call it the Star-Chamber.

† It is well known also, that the Irish Privy Council, in consequence of the Statute 10 Hen. VII, c. 4, acquired authorities which were peculiar to that assembly; but as this and some other of its jurisdictions are not particularly connected with the above-mentioned Records, it is not necessary to dwell upon them here.

Surveyor General's Office.

IN obedience to the order of the Board, bearing date the 16th day of March 1812, directing us to continue the investigation of the Reports and Papers connected with the Court of Claims, and to form a classified Schedule or Inventory thereof, according to the tabular form prepared by the Secretary; We accordingly proceeded to arrange, in alphabetical order, such of the large parcels of Reports and Schedules addressed to the Court of Claims, as had escaped the Fire of 1711, and which have been, since that period, preserved in this office: these Documents, although officially designated "Reports and Schedules," consist principally of Schedules of Lands claimed by individuals, containing notes and observations by the Officers of the Court, resulting, as we conceive, from the nature of the proofs brought forward to substantiate the different claims. The only arrangement observed was, that the Schedules were tied up in bundles, endorsed with the letters A. B. C. &c. in the following manner, viz. The Schedules of all Lands claimed by parties, the initial letter of whose names was the same, were generally tied up in one bundle, and the envelope of that bundle marked with the same letter; but even this general assortment was found in several instances not to have been attended to. The Schedules were also materially damaged, and liable to future injury, whenever opened, in consequence of the cords with which they were bound cutting through the paper. From this imperfect classification they were arranged by us in alphabetical order, and bound, under the directions of the Board, in thirty-five folio volumes, by which not only their future preservation is secured, but any matter contained in them may now be easily ascertained.

It may be necessary here to add, that previously to our arrangement, each Schedule was wrapped up in an envelope formed of the leaves of old Rent Roll Books, similar to those preserved in the Auditor General's Office; and the envelopes themselves, as well as the Schedules contained in them, being ruled in columns comprising the names of lands, and their contents in Acres; it was considered, that it might be productive of some embarrassment, both to the Officer and the Public, in future time, if the envelopes should be bound up together with the Reports and Schedules, as it might give reason to suppose that some connection had subsisted between them, which is not the case; it was therefore deemed expedient to separate them, and the envelopes were accordingly removed and deposited together, to await the further determination of the Board.

All which is most respectfully submitted, this 1st day of June 1812.

Henry Harding,
hn Fowler, } Sub-Com^{rs}.

AUDITOR GENERAL'S OFFICE.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

Report of the Sub-Commissioners on the Auditor General's Office, Dublin Castle.

IN obedience to the Order of His Majesty's Commissioners on the Public Records of Ireland, bearing date the 18th day of February 1811, directing us to methodize and arrange, as well as to make Catalogues of the Contents of the AUDITOR GENERAL'S OFFICE; we beg leave to report to the Board, that after having arranged the principal part of the Records, viz. those contained in the Dome of the Four Courts, we then proceeded to make the following General Inventory, in the form of a Press Catalogue, of all the Records, Rolls, Books, and Papers belonging to this Department, describing the Contents of each Apartment, Press, and Shelf: And for the elucidating the said Inventory or Catalogue, so far as respects the Dome of the Four Courts, and for facilitating any reference thereto, we have prefixed a GROUND PLAN of that Repository to the Catalogue of the Contents thereof.

The RECORDS, ROLLS, and other Public Documents belonging to the AUDITOR GENERAL'S OFFICE, consist of,—

1. The Great Rolls of Public Accounts - - Examined and signed by the proper Authorities.
2. The Vouchers belonging to the said Accounts under the heads of - - - } Civil Vouchers, and Military ditto.
3. The Receiver General's Books - - - } Containing both the Receipt and Expenditure of the Public Revenues.
4. The Vice Treasurer's Books - - -
5. The Pells Books - - - -
6. The Chief Chamberlain's Books - - } Containing the Receipts only, and appearing to be checks upon each other, and upon the Receiver General's Accounts.
7. The Second Chamberlain's ditto - - -
8. The Books of Patents for Lands, Titles, Manors, Fairs, &c.
9. „ King's Letters, and Government Orders.
10. „ King's Rent Rolls.
11. „ Exchequer Orders.
12. „ Assignments, and Letters of Attorney.
13. „ Decrees of the Commissioners of the Court of Claims.
14. „ Certificates of the Court of Claims.
15. „ Certificates of the Commissioners for executing the Act of Settlement.
16. The Rolls of Incumbrances on Catholic Estates.
17. The Books of Survey and Distribution - - Corresponding with the Maps of the Down Survey.
18. The Maps of the Trustees' Survey - - - Containing the Forfeitures in 1688.
19. The Accounts of the Collectors of the Revenue, for all the Districts in Ireland.
20. The Quit Rent Receipt Books - - for Ditto.
21. The Sheriffs' Accounts.
22. Some ancient Accounts of the Clerks of the Hanaper, First Fruits, Farmers of the Revenue, Subsidies, Poll Tax, &c. &c.

Together with several Documents of a Miscellaneous description, as will appear more at large in the following Inventory.

The foregoing Records are contained in two distinct Repositories; the one, the Auditor General's Office, properly so called, in the Lower Castle Yard; the other, in the Dome of the Four Courts. The former contains the Books of Patents, King's Letters, Rent Rolls, Exchequer Orders, Assignments, Decrees of the Court of Claims, Incumbrances on Catholic Estates, Books of Survey and Distribution, Maps of the Trustees' Survey, and generally such Records as, according to the custom of the Office and the opinion of the Officer who has them in charge, are most likely to be frequently called for by the Crown or the Public, in making searches in

Appendix to Report of Sub-Commissioners.

this Office; the latter contains the Rolls of Public Accounts, with their Vouchers, the Receiver General's, Vice Treasurer's, Pells, and Chamberlain's Books, the Collector's Accounts, the Quit Rent Receipt Books, the Loan, Annuity, and Exchequer Bill Books, the ancient Rent Rolls, Hanaper, Hearth-money, First Fruits Office, Farmers of the Revenue, Subsidies, Poll Tax, and Sheriffs' Accounts, and generally such Records belonging to this Office, as are not frequently called for in searches, as well as all such as may be occasionally removed, for want of room, from the Office in the Lower Castle Yard.

The Records belonging to this Office being thus divided, renders a general classification of the whole a matter not consistent with their present state of arrangement; we have, therefore, in the following Schedule, giving a Statement of the contents of each Repository, as distinct from the other, and this, from the fore-mentioned causes, rather in the form of a Press Catalogue, than of a classified Schedule of the whole, as had been originally intended.

We have also annexed to this Return, in the form of an APPENDIX, two ancient Catalogues of the Records contained in this Department, as they existed in the times of the Commonwealth, and of William and Mary; which were found in the course of our researches; and also a detailed Statement of such Maps of the Trustees' Survey, &c. &c. as are preserved in the Office in the Lower Castle Yard.

We feel it our duty to state, that the Office in the Lower Castle Yard is so limited in room, when compared with the quantity of Records deposited therein, that a part of them is obliged to be kept in the vaults underneath, where, from damp, and the want of a free circulation of air, some, even of a recent date, are mouldering into decay. With respect to the Dome of the Four Courts, to which the Records are removed occasionally from the Office in the Lower Castle Yard, though lightsome and airy during the summer season, yet, from the want of stoves, or any means of procuring a dry and warm atmosphere in winter, it is not only evidently unfit for the safe preservation of any Records deposited therein in a damp state, or which may have acquired damp therein; but it is attended with the inconvenience of being clouded with dust, which arising from the daily sweeping of the Hall below, ascends through an aperture in the centre, and lodging upon the Records, renders it impossible to make searches without brushing or wiping them every time they are handled, which tends very much to deface, at least the inside and outside leaf or skin of every Record in the form of a Roll, which form is by far the most prevalent amongst the Records in this Repository.

All which is most respectfully submitted, this 1st day of March 1815.

Of the Records and other Public Documents preserved in the Auditor General's Office, Lower Castle Yard.

PRESS.	COMPARTMENT.	SHELF.	NATURE AND PARTICULARS.	STATE OF PRESERVATION.	STATE OF ARRANGEMENT.	OBSERVATIONS.
A.	1.	Uppermost.	A lot of collectors' accounts of 1807: rolls and books.	In good order, but incomplete.	Labelled promiscuously.	These are only put here until a convenient time to remove them into the vault, and thence to the dome.
	1.	Second.	27 volumes of patents, leases, grants, &c. &c. during the reigns of K. Henry 8th, Edward 6th, Queens Mary and Elizabeth; from about 1510 to 1602.	Some in good order, others very indifferent, several pages being wanting when the books were last bound, others misplaced in the binding, turned upside down and loose, and some stained and worn.	Numerical, and partly chronological, several of them indexed; and there is a general index to this set of books which is mostly used.	Beside the index here mentioned, there is a general index in dictionary order to this set of books, made by H. Harding, which is looked on as private property, having been made by him out of office hours. For a more particular description of this set of books, see the Report of the Sub-commissioners in 1811.

A.	1	Third.	10 volumes of a new set of the King's rent rolls, of the year 1706.	Complete, and in good order.	Indexed, nearly alphabetically, in districts.	The paging of several of these books has been cut off in the binding, and the indexes in others are very incorrect; it would therefore seem highly expedient to have these defects remedied.

These books are in great want of binding; N° 7, when bound, should be divided into two parts, being upwards of six inches thick, and so heavy, as to injure any binding by its weight; there is a general index to this set of books, much damaged for want of binding.
	1	Fifth.	6 ditto - - ditto - -	- ditto -	- ditto -	- - ditto.
	1	Sixth.	12 volumes, miscellaneous; viz. 4 volumes, Grants of Queen Elizabeth. 1 volume of survey of attainted lands, county Limerick. 1 ditto of Inquisitions of earl Desmond's rebellion. 1 ditto, Composition of prot. delinquents of 1654. 1 ditto, Orders of Commissioners of Surveys in Ireland, 1655. 1 ditto, Orders of Court of Claims, 1661. 2 ditto, Abstracts of lands granted under Acts of Settlement, 1666. 1 ditto, Orders of Court of Grace for defective titles, 1684.	Complete, and mostly in good order.	Chronological; several of them have indexes, some only partially.	These books have no general index, and are seldom used; and it may be generally observed of all the indexes in the office, that they are very incorrect, and want to be amended, and in some cases entirely renewed.
	2	Uppermost.	A lot of collectors' accounts, rolls and books, 1807.	In good order, but incomplete.	Labelled promiscuously.	See note on the uppermost shelf of the other compartment (N° 1) of this press.
	2	Second.	- - ditto - - 1808 -	Complete, and in good order.	- ditto -	These are only placed here until they can be removed to the dome.
	2	Third.	- - ditto - - - -	- ditto -	- ditto -	- - ditto.
	2	Fourth.	- - ditto - - - -	- ditto -	- ditto -	- - ditto.
	2	Fifth.	14 books of maps of lands in several counties, 1701.	Some complete, others not, but all want binding; they are mostly in good order.	Counties, alphabetically; some have references, but most not.	These Maps appear to be well done, and are well worth binding; they contain the Surveys of the Forfeitures of 1688, which are drawn on paper ruled in square inches, and called the Trustees' Survey; and some few, which are not done with square inches, appear to be copied from the Down Survey; these last are in separate books: for a more particular description, see Report of the sub-commissioners in 1811, on the state of the books and rolls in this office.
	2	Ditto.	One book, endorsed "The different Surveyors' books of reference to the Down Surveys of the forfeited lands in the county Tipperary;" made in the year 1701, and by them lodged, pursuant to Act of Parliament, in the Auditor General's office in Dublin, 1701.	Complete, and in good order.	In baronies.	This book, though endorsed as before mentioned, appears to be the notes to the Trustees' Survey, and not the Down Survey.
	2	Ditto.	Book of survey of houses in Wexford, Passage, Waterford, &c. 1701.	Complete, and in good order, but wants binding.	Counties; has an index on the back.	
	2	Sixth.	A lot of collectors' accounts, 1808.	Complete, and in good order.	Labelled promiscuously.	See notes on 2d, 3d and 4th shelves of this compartment.
B.	1	Upper.	41 volumes of letters patent, assignments, King's letters, and various other matters, during the reigns of King James and Charles the 1st; 1602 to 1647.	Complete; with some exceptions, in pretty good order.	Numerical, and partly chronological; several have indexes, but there is a general index to this set, which is mostly used.	This set of books is called, generally, K. James and Charles the first's; and it was in those reigns (we presume) that these records were made or written, yet they contain, (particularly the 6th volume), some of an earlier date; an index on Mr. Lodge's plan ought to be made to this set of books, as some of them have no index, others of them imperfect, and there are two, and sometimes three books of each number, and none of them are indexed but one in the general index. They contain numerous grants in fee, and other transfers of property in fee simple, many of which are good to this day, having never been forfeited.

B.	1	Second.	43 volumes of patents passed on the Act of Settlement, grants of offices &c. during the reigns of King Charles the 2d, and James the 2d; 1660 to 1685, inclusive.	In good order, and complete, except vol. 24, which appears by an entry on the general index to this set of books, letter D., to have been formerly lost, after the general index was made.	Numerical and chronological.—There is an imperfect index to each book, and a general index of patentees' names to the whole set, all of which are very inadequate to enable the officers to make efficient searches.	These books are in good order, except a few of the last volumes, which are in pieces for want of binding; a general index on Mr. Lodge's plan has been lately made to this set by Messrs. Harding and Fowler, under the record commission, which, when copied into dictionary order, and lodged in the office, will be of great public use.
	1	Third.	20 Volumes of the Books of Survey and Distribution; viz. 2 of the county Clare. 2 - - Galway. 1 for each of the counties of Cork, Limerick, Tipperary, Mayo, and Roscommon. 7 volumes, containing each two counties; viz. 1. Kildare and Catherlogh. 1. Dublin and Wicklow. 1. Kerry and Waterford. 1. Wexford and Kilkenny. 1. King's and Queen's counties. 1. Westmeath and Longford. 1. Eastmeath and Louth. And three volumes containing each three counties; viz. 1. Armagh, Down, and Antrim. 1. Fermanagh, Monaghan, and Cavan. 1. Londonderry, Donnegal, & Tyrone. And a volume containing the counties of Leitrim and Sligo, and the barony of Tyrawley, in the Co. Mayo.	Complete, and in good order.	In counties alphabetically, as near as may be, there being 2 & 3 counties in some volumes; there is an index to each county.	These books are complete references to the maps in the Surveyor General's office, except the books of Galway, Mayo and Roscommon, of which there are no corresponding maps in the Down Survey, and appear to be references to Strafford's Survey; most of these books also contain references to the Civil Survey, of both of which last named Surveys, the maps are lost, or were probably burned in the fire which happened 1711. These books must have been made after the Down Survey in 1655, but refer to the Forfeitures in 1641, and to the distribution under the Act of Settlement; also to the forfeitures in 1688, and sale thereof in 1701.
	1	Fourth.	18 volumes of assignments, powers of attorney, &c. 1616 to 1778.	Complete, and in tolerably good order.	Numerical and chronological; have an index to each, but not complete in all.	There is no general index to this set of books, and the particular indexes are many of them very incomplete and illegible; a general index on Mr. Lodge's plan should be made to this valuable set of books. Vol. 2. appears to belong to the books of King's letters, or orders in council. The continuation of this set is in press K, compt 3, which see.
	2	Upper.	24 volumes of patents of King Charles Ist, passed on the commission of defective titles, 11th to 15th Chas Ist, inclusive.	Complete with two exceptions, (see observation) and in good order.	Numerical; have an index to each volume.	Volumes 10 & 16 are slightly injured at the beginning; there is a general index of names to this set of books, on a roll very much injured by use; it should be copied in a book, and a general index on Mr. Lodge's plan made to the whole set.
	2	Second.	15 volumes, part of an old set of the King's rent rolls, about 1692, but refer to a much earlier period.	- - -	In districts, alphabetically; and have an index to each district.	There is also another set of these books in press A, shelf 3, which are dated 1706, and should be collated with this set.
	2	Third.	24 volumes, remaining part of an old set of the King's rentals, about 1692, but refer to an earlier period.	- - -	In districts, alphabetically; each district has an index, except Loughrea.	See preceding note.
	2	Fourth.	7 large bound books of maps of forfeitures of 1688, formed pursuant to an Act of 11th and 12th of William the IIId. to prevent the further growth of popery; they are called the Trustees' Survey, 1701.	Complete, and in good order.	In provinces; some have reference tables or indexes, some not.	These were certified in 1774, to have been found in the Auditor General's office; three volumes are of Leinster, three of Munster, and one of Connaught.
	2	Ditto.	6 smaller bound books of ditto, 1701.	In good order, and complete, except as mentioned in observation.	In counties: they have reference tables or indexes.	These are certified as above, except part 2d of Cork, which appears by the index to want some of the latter maps.
	2	Ditto.	A large parchment volume of indentures of composition "tempore" Elizabeth.	Complete, and in good order, save binding.	Chronological, and indexed.	
	2	Ditto.	A book of sales of quit, &c. rents, pursuant to Act of Parliament, 1799.	Complete, as far as the sale went on, and in good order.	- ditto.	

5.—Records in the Auditor General's Office.

PRESS.	COMPARTMENT.	SHELF.	NATURE AND PARTICULARS.	STATE OF PRESERVATION.	STATE OF ARRANGEMENT.	OBSERVATIONS.
C.	1	Upper.	16 rolls of incumbrances on Roman Catholic estates; all this set is of various dates, from 1678 to 1776 generally, but with some exceptions of an earlier date. It does not appear that any have been recorded in this office since 1781.	In good order, and complete.	Numerical; not indexed.	There is a general index or repertory to all these rolls (except the three last) in the names of the parties. H. Harding has made another to the names of the lands in 108 of these 134 rolls; he considers this last index as private property, being done by him out of office hours. This series contains most descriptions of instruments.

		Third.	16 - - ditto.

		Second.	17 - - ditto.			
		Third.	11 - - ditto.			
	4	Second.	11 books of King's letters, 1628 to 1734.	Complete, in pretty good order.	Numerical and indexed.	There is also a general index of names of parties to this set of books.
			5 Miscellaneous Books, viz.			
	4	Third.	A book headed "the Value and Tax of the First Fruits of all Bishoprics, and all other Spiritual Livings, as they now stand in charge in His Majesty's Court of Exchequer." Anno regni Regis Caroli sĕdi decimo quarto.	Complete, but in pieces for want of binding.	In dioceses with an index to each.	
	"	"	A volume headed, "A Book of Lands, Tythes and Rents, formerly belonging to the Abp. of Tuam, and to the Bishopricks of Kilmore, Ardagh, Killala, Achonry, Elphin, Clonfert, Killaloe, Kilfinuragh, Kilmᵉ Duogh and Meath, and to yᵉ Deans, Deans and Chapters, A. Signed Cha. Coote." 1641 to 1655.	Complete; damaged at the top by damp.	According to the sees; there is an Index to the sees, and another to the names of persons.	
	4	Third.	A book without a title page, but appears to be a kind of survey of the Qˢ, and part of the King's County, and Co' Longford, in Cromwell's time.	Complete, and in good order.	In baronies and parishes; no index.	There is some reason to think that this book is a part of the Civil Survey; it gives the boundaries of lands, both forfeited and unforfeited.
	"	"	A book endorsed "the Accᵗ of Sir Chaˢ Coote, Kᵗ, Collector of the Composition Rents due to the Crown in the Province of Connaught." 1633.	Complete; in good order.	In counties and baronies; no index, but a sort of general table at the beginning of each county.	
	"	"	The Copy of the Roll of Innocents, having no date, but appears to be upwards of 50 years old.	Complete when rebound, and in pretty good order.	In counties; has an index made lately by T. Harding, under this Board.	This book nearly useless until bound.
	4	Fourth.	16 Books of Exchequer Orders, from 1661 to 1814, inclusive.	Complete; in pretty good order, but some of them want binding.	Partly numerical and chronological; have indexes of the parties names.	Three or four of these volumes want binding very much; two have no covers. These books would be very useful if a general index on Mr. Lodge's plan were made to them; they are all numbered on the back, except the first.

	4	Fourth.	1 book of Exchequer orders; 1666 & 7.	Complete, but much damaged, and in want of binding.	Nearly chronological; has an index, but torn.	*Note.*—The years contained in these two volumes are also contained in 5, 6, 7, and 8 of the above series, though the contents of the books differ.
			- - Ditto; 1669 to 1676 -	Complete, and in good order.	Nearly chronological; has an index.	
	5	Upper.	6 volumes of Decrees of Commissioners of the Court of Claims, 1663.	Complete; in good order, but want binding.	Numerical; have indexes.	From page 1 to 4 of vol. 6. wanting, and several of the following leaves in pieces for want of binding; there is a general index of parties to this set of books, by H. Harding; but an index on Lodge's plan would be highly useful.
	5	„	One volume, being a general index to the series called Q. Elizabeth's Patents, &c. in the time of K. Henry 8th, Elizabeth, James and Charles 1st.	- ditto -	Alphabetical, but not in dictionary order.	
	5	„	One volume, being a general index to the series of K. James and Chas the first's patents.	- ditto -	- ditto.	
	5	„	One volume, being a general index to Q. Elizabeth's rent roll, 1586.	Complete, in good order, binding middling.	- ditto.	
	5	„	A volume, being a general index to patentees names; K. Charles 2d.	Complete, in middling order, binding very bad.	- ditto.	
	5	„	A volume, endorsed "An Alphabet of Letters patent, from 1684 to this present time;" 1690 to 1776.	Complete, pretty good order, but binding indifferent.	- ditto.	
	5	„	One volume, endorsed "An alphabet of Ks Letters, Govt Warrts from 1625 to present time;" 1625 to 1765.	Complete, and in good order.	- ditto.	
	5	Second.	A parchment roll, endorsed "An Alphabet of the defective Titles;" which refers to the series called Patents, passed on the commission of defective titles, about 1637.	Damaged and defaced by constant use.	Alphabetical, but not in dictionary order.	These two rolls should be copied in books; they are general indexes.
	5	„	A parchment roll, endorsed "Alphabet to Certificates," and refers to the eight books of certificates of Court of Claims, about 1667.	Damaged and defaced by use.	- ditto.	
	5	„	A book headed, "An Abstract of the Fairs and Markets granted by Letters Patent;" refers from Q. Elizabeth to Charles 1st, inclusive.	- ditto -	In counties.	
	5	„	A book or index, endorsed "Manors;" refers to Q. Elizabeth.	Damaged by use, but in pretty good order.	Refers to the volumes numerically.	This is a tolerably good index to the first 20 volumes of Queen Elizabeth's; it does not refer to the last 7 volumes, and if indexes were made to that series of books on Lodge's plan, there would be no necessity for this index.
	5	„	A roll or book, appearing to be a rent roll of Ulster province, called K. James and Charles first's Rent Roll.	Defective at beginning and end, and torn for want of binding; rest in pretty good order.	In counties; has an index to each county.	This is a very useful book, having references to the records belonging to most of the articles in it. The index to the first county is torn and nearly all gone, and the last folio is in the same state.
	5	„	2 books, appearing to be rent rolls of Leinster province, called K. James and Charles first's Rental.	Defective at beginning and end, for want of binding, and in middling order.	In counties; has an index to each county, that to Dublin, in the beginning, all gone.	One of these two volumes was found in the dome by the sub-commissioners.
	5	„	A like book of Munster Province; refers to Q. Elizabeth, K. James and Charles 1st.	Ditto, but rather better order.	In counties.	This book was found in the dome by the sub-commissioners; they all want re-binding.
	5	Third.	3 books of certificates of the Court of Claims, called Transplanters; 1676, 1677, and 1678.	Complete, and in good order, but binding bad.	Numerical; an index to each volume.

C.	5	Third.	A parchment roll, called the Roll of Innocents, thus headed, "By His Majesty's Commissioners appointed for executing the Act of Settlement and Explanacon." "A Schedule or List of lands, tenements and hereditaments, formerly seized, sequestered or set out, by reason of or upon account of the late rebellion or war; which began or broke out in this kingdom of Ireld, upon the 23d of October 1641, and which have been since restored by His Mäty's late Comrs appointed for putting in execution an Act, entitled 'An Act for the better execution of His Mäty's gratious declaration for the Settlemt of his Kingdom of Ireld, and satisfn of the sevl interests of adventrs, soldrs, and other his subjects there, unto persons of the Roman Catholicque religion; by virtue of decrees confirmed by an Act, entitled 'An Act for explaining some doubts arising upon an Act, entitled "An Act for the better execun of His Mäties gratious declarn for the Settlemt of his Kingdom of Ireland, and satisfaction of the several interests of adventrs, soldrs and other his subjts there;" and for making some alteracons of, and addicons unto the sd Act for the more speedy and effectual Settlemt of the sd Kingdom;' and for so much as is still in force, and remains to be executed of another Act, entitled, 'An Act for the better execution of His Mäty's gratious declaration for the Settlemt of his Kingdom of Ireland, and satisfaction of the several interests of advrs, soldiers, and other his subjects there,' together with the lands thereof, acres, both plantation and English." No date, but supposed to be about 1679.	Complete, but in very middling order, being much damaged at the beginning and end by use.	In counties; an index at the beginning, but much obliterated.	This roll is signed and sealed by three Commissioners; viz. Edw. Smyth, Edwd Dering, and A. Broderick; there is a copy of this roll in the office in press C., compartment 4, shelf 3, which was found in the dome by the sub-commissioners, and completed under the Board by Thos Harding, which, when bound, would be of great use, and preclude the necessity of referring to this, except on particular occasions.
	5	Fourth.	A roll, endorsed "Visus Lagenæ et Momoniæ, anno R. Caroli 19°."	Complete, but in bad order.	In counties; has an index to some of the counties, but the first gone.	This roll is much worn out and torn; it is useful to show where property is transferred, as it mentions where assignments were made, and by whom.
D.	1	Upper.	19 books of letters patent, from beginning of K. James 2d to present time 1815.	Complete, and in good order.	Numerical; there is an index of parties names to each book.	There is also a general index of patentees names, from liber 1 to 12 inclusive.
	1	Second.	7 yeomanry leger books, from 1797 to 1802, inclusive.	Complete, and in good order.		
	1	Ditto.	Several parcels of votes of House of Commons, &c. from 1800 to 1808.			
	1	Third.	8 yeomanry issue books, 1798 to 1802, inclusive.			
	1	Ditto.	A book of debentures, cancelled and converted into stock; from 12th Oct. 1799.	Complete, and in good order.		
	1	Ditto.	4 books of yeomanry orders; 1797 and 1798.	- ditto.		
	1	Ditto.	One book, endorsed "Refers and Reports to Treasury Board;" 1797 to 1800.	- ditto -	- - -	But a small portion of this is written on.
	1	Ditto.	A book, headed "Payments made in the Treasury pursuant to Acts of Parliament, in one year to Lady-day 1795."	- ditto.		
	1	Ditto.	A bundle of District corps' orders, loose Acts of Parliament, &c. &c. of various dates.	In good order.		
E.	1	Upper.	21 volumes of King's letters and Government orders, from N° 12 to 32 inclusive; from 1734 to present year 1815, inclusive.	Complete, and in good order.	Numerical and chronological.—There is an index of parties names to each book.	For remainder of this series, see press C., compartment 4, shelf 2d.
	1	Ditto.	8 volumes of books of assignments and powers of attorney, from N° 21 to 28 inclusive; from 1793 to 1815.	- ditto -	- ditto -	See note on the other part of this series, press B., compartment 2, upper shelf.
	1	Ditto.	3 volumes of assignments; from 1805 to 1815, inclusive.	- ditto -	- ditto.	
	2	Under.	2 books of Union compensation; 1801 to 1804.	- ditto -	Mixed & indexed.

ROLLS OFFICE.

To His Majesty's Commissioners on the Public Records of Ireland.

REPORT of *James Hardiman*, Sub-Commissioner, on The ROLLS OFFICE.

THE first Volume of the Reports and Proceedings of the Board, contains two Returns of the Contents of this extensive Repository, made respectively by the Deputy Keeper of the Rolls, and by the principal Sub-Commissioners then employed on this Department. In addition to what was thus generally reported of the State and Contents of the Office, little now remains to be said; I shall, therefore, for the present, beg leave to lay before the Board the Schedules and Inventories which have been formed of the principal part of the Records here preserved; viz. The Statute Rolls, Patent and Close Rolls, Inquisitions post Mortem, Pleadings, Recognizance Rolls, Miscellaneous Records, and old Books of Reference. The Schedules and Inventories of the entire of these Documents, were formed by the Sub-Commissioners, principally during the Arrangements which took place in this Repository under the Directions of the Board; and they embrace the most valuable Records which are here preserved. The Statute Rolls commence with a small Roll of Exemplifications of some Statutes enacted in a Parliament held at York in the third year of Edward the Third. The state and condition, ancient Marks and Inscriptions, number of Acts and number of Membranes in each Roll, are given. The Patent and Close Rolls commence in the reign of Edward I.; the Inventory of them is formed similarly to that of the Statute Rolls, and in both, the principal object was, that of completely identifying the original Records. The Inventories of the Inquisitions post Mortem, and of the several other Records above enumerated, will be found not only to have attained that end, but also to give a clue to original Record information not hitherto generally known.

Having lately submitted to Your Committee of Observation, a Statement of such Measures as it appeared to me would be necessary, towards completing the Arrangements undertaken in this Repository; I take this opportunity of suggesting to the Board, in addition to what I had therein laid before the Committee, that the Catalogue of the Fiants should be forthwith completed. Amongst this class of Records, many important Documents, consisting of Charters to Corporations, and Grants of various other kinds, viz. of Lands, Offices, Dignities, &c. from the Crown, do not appear to have been ever inrolled, and consequently not being entered in the Books, the Public is unacquainted with their existence; although, there can be no doubt, but that the knowledge of many of them would prove of great consequence. A Catalogue of the Transmisses of Acts of Parliament, both public and private, and of the Rolls termed Catholic Rolls, would be highly desirable. It would also be necessary to cover all the Rolls with strong Parchment, and have them uniformly indorsed; and, above all, it should be made mandatory on future Officers carefully to preserve the Records in the same degree of order and regularity in which they have been placed by your Sub-Commissioners, without which, from the constant references made to them, no arrangement can be either durable or beneficial. These, with the different suggestions contained in former Reports, appear to me to be the principal matters that now remain to be attended to in this Department; and, with what has been already done, and is still in progress under the Board, they will have the effect of rendering the great portion of National Records contained in the Rolls Office more serviceable to the Public, and will likewise preserve them in a permanent state of arrangement and security for Posterity.

All which is most respectfully submitted, this 9th day of January 1819.

James Hardiman,
Sub-Commissioner on the Rolls Office.

1	9	1	1	Ed. 3tii A° 9° Actus in Parliamento tent' apud York.	This membrane, found amongst the miscell' records, and afterwards made up into a roll, contains three Statutes enacted at York; which very probably were transmitted from England to be observed here. It bears no ancient mark or indorsement of any description, but is in good preservation.

				EDWARD IV.	
18	1	1	1	1st Edw. 4th. Anno primo Ed. quarto.	This roll contains eleven Acts. It is very much damaged and torn throughout, but so much of the writing as remains is perfectly legible.
	2	1	2	2° of Edw. 4th. Statuta Sc̃di Edw. 4th. quarti.—Attainder of the erle of Ormonde.	This roll contains eighteen Acts, and is in tolerable preservation; but the writing at the beginning and end is weak. It is evidently the remains of a larger roll, for although the eighteenth Act finishes at the end of the second membrane, yet there are marks that another membrane, which is now lost, was formerly sewed to the second.
	3	2	4	13, 3 Edw. 4. Año 3° E. 4^{ti}. (*Note.*—The Acts herein, are inrolled in another roll of this year. *The foregoing words are written on a membrane of parchment, sewed to the roll to preserve it. The following are under it, on the roll itself.*) Exand anno tertio Edwardi Quarti. Prise Wynes, Thomas Courte, on the back of this rolle.	This roll is written on the front and back, and contains thirty-one Acts. The fourth strip is paper, but very thick and well preserved; the writing on the first membrane (which is a little damaged) is somewhat illegible, but particularly on the back; the remainder of the roll is in good preservation.
	—	—	16	3° Ed. 4. Anno tercio E. quarti.	This roll contains 109 Acts. The first membrane is torn and somewhat damaged, and a small portion of the writing is lost; but the sides of the roll, almost throughout, are decayed away. This roll in other respects is in excellent preservation, and the writing in general very good. It appears to contain all the Acts on the last roll.
	5	1	11	4 Anno 4to Edw̃i 4^{ti} anno quarto Edwardi quarti.	This roll contains seventy-seven Acts, enacted in three sessions. The first membrane is defaced at the beginning, and part of the second membrane is torn away, but the loss is supplied by an additional membrane attached to the second, upon which the Acts are transcribed in more modern writing than the rest. The remainder of the roll is in excellent preservation. This, though marked the 4th, is a roll of the 5th Edw. IV.
	7 & 8	1	15	Anno 7°&8°Ed. 4.—27&61. 3. 1. Write ye 61st only.	This roll contains the Acts of six sessions, in number eighty-four. The first membrane, and the beginning of the second, are in bad condition, and the writing almost illegible; the beginnng of the fifth is a little damaged; and the writing on the sixth very weak. The remainder of the roll is in good preservation.
	10	1	5	10 Anno decimo Ed. quarti Ex. 10 Ed. 4.	This roll contains thirty-three Acts. The first membrane is a little torn near the beginning; the third, fourth and fifth membranes, but particularly the last, are also injured by damp, and part of the writing lost; but the remainder of the roll is in good condition, and legible.
	11 & 12	1	11	Anno 11°Eddi. 4^{ti}. Eleventh Eddi. 4^{ti} 6. 6. 11. 12. Anno XI° Ed. quarti—& 12th.	This roll contains ninety-one Acts, enacted in five sessions. The beginning of the second membrane is a little damaged by damp, but the remainder of the roll is in good preservation.
	12 & 13	1	12	11. Ed. 4. 12 & 13.—Anno duodecimo et 13° Edi quarti.	This roll contains eighty-three Acts passed in three sessions. It is in very good preservation, except the first membrane, which is damaged and torn, but none of the writing is lost.
	14	1	5	14. anno decimo quarto Edi. quarti.	This roll contains twenty-four Acts, and is in good preservation, except a very small part of the first membrane.
	15 & 16	1	16	Anno 15 Edwardi quarti & 16	This roll contains ninety-two Acts, passed in three sessions; the first session in the fifteenth, and the other two in the 16th of the reign. The first membrane is a little torn, but none of the writing is lost; and the roll is throughout in very good preservation.
	16 & 17	1	8	Anno 16to et 17mo Edw. 4^{ti} Stat̃ anno Edwardi quarti XVI° & XVII°. A frank house in Waterforde.	This roll contains fifty-five Acts, passed in three sessions, and is in very good preservation. It is marked the 16th and 17th of Edw. IV., in modern writing, yet the roll is entirely of the 16th year.
	18	3	5	6 anno decimo octavo Edi. quarti.—Anno XVIII° Ed. 4.	This roll contains twenty-one Acts. The first membrane is a little torn; but the remainder are in good preservation. Part of the roll is lost; for it is evident that another membrane was sewed to that which is now the last. The Acts on the last membrane were originally left incomplete.

REPORT on the state of the Pleadings of the High Court of Chancery, preserved in the ROLLS OFFICE.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

HAVING completed the Regulation of the Pleadings of His Majesty's High Court of Chancery, preserved in the Rolls Office, I humbly beg leave to submit to Your Honourable Board, the following Statement of the Proceedings, adopted in the performance of that Duty; with a Description of the former State of these Records, compared with their present improved position and arrangement.

The Pleadings of the Court of Chancery, which are by far the most numerous species of Records preserved in the Rolls Office, and which are daily encreasing, were, previous to the Record Commission, in a state of very great disorder and confusion; for a particular detail of which, I beg leave to refer to a Return made from this Office, by Messrs. Nash and Hardiman, Sub-Commissioners, on the 24th of March 1812, in which the then situation of the Pleadings was fully described, and the necessity of having them forthwith regulated was suggested: These suggestions were soon afterwards taken into consideration at a meeting of the Sub-Commissioners on this Department, and the following Plan of Arrangement was agreed upon.—

The Pleadings in general being very irregular, the more ancient lying on the tops of the Presses, some of them necessarily placed there to make room for the arrangements in the Gallery, and those which lie in the Presses in the lower Room, being put in without any system, if not soon arranged, the confusion, which is daily encreasing, will become a nuisance. The ensuing Summer seems the best opportunity for the purpose, particularly as it would be desirable to have those which are now lying on the tops of the Presses put up, to make way for the new Presses. The following Plan for their arrangement was then resolved on:—1st, To take all the old bundles and arrange them in chronological order, and to put all the detached Pleadings into their respective bundles; in order to do which, they must, in the first instance, be judiciously arranged on the floor in the lower Room.—2nd, To take an account of the contents of all the Presses below, in order to know immediately where the Pleadings of each year lie, and to place them chronologically in the Presses as hereafter mentioned.—3d, The oldest Pleadings are to commence in the Presses on the left side of the door entrance. The five or six first Presses are to be cleared of the Pleadings in them, which are to be put into other Presses and marked. When reception for the oldest Pleadings shall be thus provided, these Pleadings, as arranged on the floor, are to be put up, beginning with the earliest, and leaving sufficient room for the old Pleadings in the Dome of the Four Courts.—4th, The process recommended in the last paragraph, to be continued all round the Room, in the Wall Presses to the left side of the door entrance.—5th, The arrangement, still making room as before, from the Press next the left side of the entrance, as mentioned in the last paragraph, is to be continued to the side Presses next the door of the central range, facing the windows on the right side entrance, and round the side Presses fronting the windows, to the last Press fronting the windows on the left side of the Room.—6th, Then in continuation chronologically to the first Press on the right of the first range of the central Presses, at the lower end of the Room; in it are to be placed the Bills of the year following that which will end in the side Press, as mentioned in the last paragraph, and on the other side of the Press are to be put the Answers of that year. And in this order the arrangement to be continued through the central Presses, always placing the Bills in those farthest from the door, and the Answers in those next the door.—7th, In order to proceed regularly in this heavy arrangement, it will be necessary to divide all the Pleadings into three parts; *viz.* the First, those prior to 1700, which are first to be arranged; Second, those from 1700 to 1760, which are next to be arranged; and Thirdly, those from 1760 to the present time.—8th, It is to be generally understood, that the old Pleadings to 1700, are to be compressed into as little space as possible; and that in the entire arrangement no departure is to be made from the subdivisions according to terms, or Six Clerks; in order to prevent confusion.

Although the foregoing Plan was adopted on the 20th of July 1812, still the several Sub-Commissioners on the Rolls Office, being engaged in various other branches of duty, the arrangement recommended could not be immediately proceeded on; and in the mean time the ancient Pleadings discovered in the Dome of the Four Courts having been removed to the Rolls Office Record Room, it became necessary to have them arranged into years, and placed in the Presses fitted up for their reception, before the arrangement of the Pleadings, which were always in the Office, could be commenced. This having been accordingly done in the years 1813 and 1814, the former plan for the Arrangement of the other Pleadings was taken into consideration, as soon as the weather would permit resuming operations in the Record Room. And at a meeting of the Sub-Commissioners on the 6th of March 1815, it was resolved that the arrangement of the Pleadings upon the Plan laid down and agreed upon the 20th of May 1812, should be immediately commenced by me, assisted by the advice of Mr. Hardiman; and that such assistance as should be conceived necessary to expedite and complete the undertaking, should be furnished immediately. The business was accordingly proceeded on during the years 1815 and 1816, and on the 4th of November 1816, I made a Return of the complete arrangement of the Pleadings, when it was resolved, that it would then be a proper time to obtain a general view of the lower part of the Record Room, and that I should prepare a Report on the same, and add thereto any observations that might have occurred to me, for the future preservation and use of those Records. In order to afford a general view of the lower Record Room,

Room, I found it necessary to advert to the Plan of Arrangement adopted, and the present state of the Pleadings. I have already had occasion to observe, that for the reception of the ancient Pleadings brought from the Dome of the Four Courts, a suitable range of shelves or open Presses have been fitted up round the Record Room over the former Presses, the ancient Pleadings have been placed in them in chronological order from the year 1568 to the year 1654, besides several more ancient, but without dates. It was found that several of the Pleadings, which had always been in the Office, might be also put in the upper Presses along with those newly brought in, and thereby make room in the ground Presses for the future Records: accordingly, the Bills and Answers from the year 1655, (which were the most ancient in the Office previously to the transfer,) to the year 1700 inclusive, were so arranged, and the Pleadings of the year 1701, and from thence to the present time, are placed in the ground Presses in the following order.

Until the year 1725, the Pleadings, both Bills and Answers, were divided into Terms constituting four bundles in each year; those previous to the year 1701, in the upper Presses, which contain each but two shelves, are placed in those shelves in certain portions and periods, consulting the size of the bundles for the time, and the ease and convenience of reference to them. All the under Presses, in which the Pleadings since 1700 are placed, contain each six shelves; they commence in the Window Presses on the north, or left hand-side of the Room from the entrance, and each Press contains Pleadings for three years, one side of the Press containing the Bills, and the other the Answers for the same periods. The years contained in each, are affixed to the top of every Press, in printed labels, and interior labels are affixed to the edge of each shelf, specifying the Year and Term which it contains. There are eight Presses on the north side of the Room, between the Windows, and in these are contained the Pleadings to the year 1724 inclusive, thence they are continued in the Wall Presses round the Room, the last Press containing those of the years 1722, 1723 and 1724, and thence they are continued in the Presses, as well those between as those fronting the Windows round the Room, the first Press facing the south side, containing those of the years 1753 and 1754, and the last Press facing the north side, containing those of the year 1772. As the Pleadings since 1724 are divided each year according to Six Clerks, viz. into one bundle or file of Bills, and another of Answers for each Six Clerk, there are consequently six files of Bills, and six files of Answers each year; and every Press containing six shelves, each of which was copious enough to admit two files, until the year 1760, each Press until then contains the Pleadings of two years, on one side Bills, and on the other the corresponding Answers. From the size of the files since 1760, only one can fit in each shelf, so that one year consequently occupies twelve shelves to the present time, and on every Press is placed a printed label of the years, and inside on each shelf, the name of the Six Clerk.

As the Entries of the various Pleadings in the Books are made with reference to the Six Clerks' names, without which no Pleading can be found, it is of the greatest importance that they should be fully explained and understood; in order to which, I have frequently found it necessary to recur to the List of the names and order of succession of the Six Clerks, from the year 1725 to the present, and which I hope may not be deemed irrelevant to be introduced; I therefore beg leave to annex them as an Appendix.

As to the position of the Pleadings in the centre Presses, when those in the side Presses fronting the windows on the north side of the room were completed, they were continued in the centre Presses, the Bills being always placed at the side farthest from, and the Answers in those next the entrance door. Besides the great body of the Pleadings, which has been arranged, as before stated, there were other divisions or parcels of the Pleadings, which it was equally necessary to attend to the arrangement of, otherwise the entire could not be deemed complete. These were, first, Answers without Six Clerks' names, and which were kept on files by themselves, of which there were a considerable number, from the first of June 1736, to the 9th of July 1769: these, I had put on the files of Jones, Harvey, and Cope, where any Answers now appearing in the Books without Six Clerks' names will consequently be found. This I was induced to do, to prevent the confusion which might arise from too many subdivisions of the Pleadings, and the files of the above Six Clerks were selected, they being the predecessors of Mr. Mills, the present Six Clerk, upon whose file, as generally the smallest, Answers without Six Clerks' names have been uniformly placed for many years past.—Second, Stopped Pleadings, which are in general Answers sent into the office to be filed, and when, on enquiry, it was found that attested copies of the Bills to which they purported to be Answers, were not taken out, the Answers were accordingly stopped in their progress, and not filed with the other Pleadings, or entered in the Books, but were placed by themselves on separate files, of which there were several since the year 1698, to the year 1794; in which latter year a Rule was made, not to receive them any more. These Pleadings are now nearly entered and put on their respective files by Mr. James Mayne, to whose Supplemental Report I beg leave to refer, for a more particular account of those Records.—Third, Long Pleadings. This class is denominated Long Pleadings, being such as from their great length and size could not be put upon the general files, and therefore it became necessary to keep them separate. All these I collected, and having arranged them in strict chronological order, placed them in the Presses on each side of the entrance door, commencing in those of the right. Over each Press there is a printed label denoting the contents, and on the under-shelves, the period of the contents of each is expressed, com-

mencing in 1670, and continued to the present time. A certain number is allotted to each shelf; each Pleading is numbered; and, in order to facilitate the finding of any of them that may be wanted, I have entered the entire in a Folio Volume kept with the other Books of Pleadings, specifying the number of each Pleading, the Parties' names and dates, by which means they can be now referred to as readily as any of the other Pleadings.

All which I humbly submit, this 8th day of March 1817. *Francis J. Nash.*
Ass^{t} Sub-Com^{r}.

CHIEF REMEMBRANCER'S OFFICE.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

Report on the Schedules and Inventories of the Records of the Chief Remembrancer's Office of His Majesty's Court of Exchequer.

HAVING, with the assistance of Mr. Hardiman one of your Sub-Commissioners, proceeded, pursuant to order, to form a classified Schedule and general Inventory of the various Rolls preserved in the Office of the Chief Remenbrancer of His Majesty's Court of Exchequer, I was under the necessity of resorting to each individual Roll to ascertain the number of Membranes which each contained, the state and condition of every Roll, and the headings, indorsements, inscriptions and general contents of these records, beginning with the oldest preserved here, which is a Roll of the 6th year of the reign of Edward I. and continuing to the present time, during which period they have been kept in an uninterrupted series, with the exception of some few chasms, the most considerable of which occur during the reign of Edward I. The Memoranda Rolls, properly so called, appear to commence in the first year of the reign of Edward II. There are also preserved amongst these, several Patent and Close Rolls of the Court of Chancery, the oldest of which is a Roll of the 2d year of Edward II, and the latest is one of the reign of Henry VII. Of these various Rolls I have formed the Catalogue which is hereto subjoined, and which will be found to contain the several particulars above enumerated; in consequence of which, the original documents may be immediately referred to and identified. A Schedule similarly classified, or nearly so, will be also found subjoined, of the Rolls of Decrees of Innocents, the Rolls or Inrolments of Connaught Certificates, or Decrees, during the reign of Charles II, and the Rolls of Reducements of Quit Rents, during the same reign. A List of various Muniments relating to the sale of forfeited Estates in Ireland in 1688, entered on the Roll of the 3d and 4th years of Queen Anne, preserved in this Office, has been also abstracted, and will be found annexed to the foregoing Schedules.

After much consideration with Mr. Hardiman, and Mr. Baldwin one of the Officers of the Court, on the state of the Records in this Repository, I beg leave humbly to suggest to the Board the propriety of forthwith adopting measures to protect those ancient and valuable Documents, preserved for so many centuries in this Office, from further injury, and to keep them in the same state of arrangement into which I found it necessary to reduce them, before the Schedules could be completed. For this purpose it appeared to us, that it would be necessary to have every Roll enveloped in strong vellum or parchment, and that all should be uniformly labelled and indorsed. It would be also requisite that the present presses should undergo some alteration for the more convenient reception of the Records. It would likewise be desirable, for the careful preservation of the Inquisitions in this Office, the Catalogue of which, hereto annexed, has been formed by Messrs. Litton and Kelly, that they should be pressed, cleansed, and placed in portfolios, as has been done with the Inquisitions in the Rolls Office. In conclusion, I beg leave to state, that I have paid every attention to the execution of the foregoing duty, and that the classified Schedules so formed, are correct in every particular, according to the best of my belief and judgment.

All which is most respectfully submitted by

Thomas Tyrrell,
Sub-Com^{r} Chief Rem. Office.

				GEORGE III.

III. only, contains more inrolments of the first year than of the 2d. The inrolments of the 1st and 2d years have the several terms indiscriminately dated 1761, except in a few instances. The first and second names and articles are henceforth omitted in this catalogue, the rolls being otherwise sufficiently identified.
431	2-3	1	478	Inrolments in the second year of George the third of Great Britain, &c. and in the year of our Lord 1762.	This roll contains one entry of the 1st year of this reign. The several terms in the 2d and 3d years are indiscriminately dated 1762, except one entry. There are two entries, one of 2d Geo. II, the other of 4th Geo. II, both dated 1762.
432	3-4	1	338	Inrolments in the third and fourth years of the reign of George the third of Great Britain, &c. and in the year of our Lord 1763. 435	6	1	328	Inrolments, 1766.	There are three inrolments of Mich. term, and one of Easter, in the 7th year, dated 1766. There is one inrolment of 6 Geo. II, dated 1766.
436	7-8	1	301	Inrolments, 1767.	Many of the inrolments entered as of the 7th year of this reign, are of Mich. term 1767; and the inrolments of the 8th year are entered as of the same term. There is one entry of Easter 7 Geo. II, dated 1767.
437	8-9	1	220	Decrees in 1768.	The several terms in 1768 are headed the 8th or 9th years, and all the inrolments, except in one instance, are dated 1768.
438	9-10	1	342	Inrolments, 1769.	There are two inrolments without the year of the reign: two others, entered Easter term 7 Geo. III, and Hill. 8 Geo. III, are dated 1767; another, 10 Geo. III, Mich. is dated 1770, and another 19 Geo. III, Hill, is dated 1779. The rest, though of the same term, are dated 1769.
439	10-11	1	219	Inrolments, 1770.	The several terms in the year 1770 are indiscriminately entered as being of the tenth and eleventh years of this reign. There is also one inrolment of Hill. term in the ninth year, dated 1770.
440	11-12	1	262	Inrolments, 1771.	The several terms of the year 1771 are indiscriminately entered as being of the 11th and 12th years of this reign. There is one entry of the 10th year, Trin. 1770.
441	12-13	1	373	Inrolments, 1772.	The same observation applies here as before with respect to the terms of 1772.

There are two inrolments, one Hill. the other Trin. dated 1775, and entered as being of the 14th year; also one of Trin. in the 18th year, is dated anno 1775, and another Trin. 15th year, dated anno 1765. Several entries of this year (15th) are dated anno 1774.

7.—Chief Remembrancer's Office.—Memoranda Rolls.

Running Number.	Year of Reign.	Annual Number.	Number of Membs.	Headings or Indorsements.	GENERAL OBSERVATIONS.
445	16-17	1	158	Decrees in 1776.	The several terms of the year 1776 are indiscriminately entered of the 16th and 17th years. Some terms of the 17th year are dated 1777. There is one entry, Hill. 15th year, dated anno 1776, another of Easter 18th year, dated 1778, and another of Trin. 21st year, dated 1781.
446	17-18	1	111	Inrolments, 1777.	The several terms of the year 1777 are indiscriminately entered of the 17th and 18th years. Some inrolments of the 18th year are dated anno 1778.
447	18-19	1	105	Inrolments, 1778.	There are very few inrolments of the 19th year, and what are entered are dated 1778; this is also the date given to inrolments of the 18th year.
448	19	1	104	Inrolments, 1779.	There is one inrolment of the 19th year of this reign, Trin. term, dated 1781, all the others are dated 1779. There are also three of the 17th year, one of the 18th Hill. term, and another of 20th Easter term, all dated anno 1779.
449	20-21	1	71	Inrolments, 1780.	Trinity term anno 1780 is indiscriminately entered on this roll as being of the 20th and 21st years of this reign.
450	21-22	1	96	Inrolments, 1781.	Michaelmas term, anno 1781, is entered on this roll, as being of the 21st or 22d years. There are two entries, one of Trin. 18th year, and another of same term, 20th year, both dated 1781.
451	22-23	1	70	Inrolments, 1782.	The terms on this roll are indiscriminately entered as of the 22nd or 23d years, though dated anno 1782. There is one entry of Easter term, 22d year, dated 1781, and another of Mich. 23d year, dated 1783.
452	23-24	1	107	Inrolments, 1783.	The several terms in the year 1783 are entered as of the 23d or 24th years. There is one entry of Easter term, 30th year, dated 1783.
453	24-25	1	273	[ ]	It appears as if a roll were missing here, from the very few entries of the 24th year of this reign; the roll immediately preceding this contains not more than half the quantity usually found in other years (the entries of any particular year of this reign being usually equally divided between two rolls); and the next roll found in succession has two entries only of the 24th year.
454	25-26	1	236	Inrolments, 1785.	There are three entries, one of Easter, 24th year, another of Mich. same year, and another of Hill. 26th year, all dated anno 1785.—There is also an entry of 26th year, Mich. term, dated 1786; the others of the same term and year of the reign, are dated 1785.
455	26-27	1	450	Inrolments, 1786.	There are some entries on this roll of Mich. in the 26th year, and many of Mich. (there being no other term on the roll), in the 27th year, all dated 1786.—Two entries of the 26th, and two of the 27th years, are blank as to the term, but all bear the same date.—There is one inrolment of Geo. II. Easter term, 1756.
456	27-28	1	449	Inrolments, 1787.	All the entries on this roll, whether of the 27th or 28th years, are dated 1787. All those of the 28th year are of Mich. term, and there are some also of Mich. in the 27th year.
457	28-29	1	423	Inrolments, 1788.	The terms on this roll are very indistinctly headed; most of them are dated anno 1788. There is also one entry of the 27th year, dated 1788. One term is blank in the 28th year.
458	29-30	1	400	[ ]	It appears as if a roll were missing here, the roll next in succession not containing any inrolments of the 29th year, and the roll immediately preceding not containing a sufficient number of entries to exclude the probability of there being another roll.
459	30-31	1	570	Inrolments, 1790.	The same uncertainty exists here as before, with respect to the year of the reign and the year of our Lord. One entry, dated 1790, Easter term, is headed as of the 32d year of this reign.
460	30-31-32	1	621	Inrolments, 1791.	The same observation may be made here; these three years of this reign, and every term, are all dated 1791.
461	31-32-33	1	547	Inrolments, 1792.	The inrolments of the 31st year are either of Trinity or Hill. terms, the 32d contains entries of the four terms, the 33d Mich. alone, but every entry on the roll is dated 1792.

469	40-41-42	1	470	Inrolments of Decrees in 1800.	All the entries on this roll are dated 1800, though they extend to the four terms in the 40th and 41st years, and to one entry of Easter term, in the 42d year, which is the only entry of that year.—There is one entry, which has neither date nor term.
470	41-42-43	1	435	Inrolments of Decrees in 1801.	All the entries on this roll are dated 1801, though they comprehend the four terms of the 41st and 42d years, and one inrolment of Easter, 43d year, which is the only entry of that year.

Appendix to Report of Sub-Commissioners:

MEMORANDA ROLLS.

PLAN submitted by Mr. Hardiman to the Committee of Observation, for the formation of a Calendar of the Contents of the Memoranda Rolls preserved in the Office of the Chief Remembrancer of His Majesty's Court of Exchequer, *Dublin.*

THE Memoranda Rolls of the Exchequer commence in the first year of the Reign of Edward II. (1307;) and from that period contain a copious and valuable fund of interesting and curious information relative to the ancient legal practice and proceedings of the Court, the appointment and nomination of its Officers and other Ministers, the transfer and disposition of Property, and the rights and privileges belonging to it. They are also particularly illustrative of several facts connected with the general History of the Country, but being hitherto unexplored, and no Books of Reference now remaining to any of them previously to the reign of Henry VIII., and even since that time but very imperfect ones, their contents are almost entirely unknown. The importance, therefore, of a Calendar, judiciously formed, of all the material and important matters which they contain, and which throw so much light on the former state of this Country, is too obvious to need further illustration.

It was supposed for a long time, even after the proceedings under the Record Commission had commenced, that all the Rolls in the Exchequer, from the 6th of Edward I. (which is the date of the oldest Record in the office) were Memoranda or Exchequer Rolls; but upon a close investigation of their contents, I found that there were amongst them several Rolls containing entries of Common Pleas, which consequently do not come within the present plan for a Calendar of the Contents of the Memoranda Rolls. For example, the Roll of 6th Edward I. is a Common Pleas Roll, entitled "Essonia Placitorum Communium, &c. coram Roberto Bagod et Sociis suis;" at which period this Robert Bagod was Chief Justice de Banco, *i. e.* of the Common Bench Dublin. This Roll is also entitled "Essonia de Malo ven', Malo lecti, &c. coram eisdem; Placita Corone coram eisdem in Gildhalda Dublin," being chiefly Pleas of the Crown; and it also contains entries of Amercements (Amerciamenta Corone) imposed by the Justices in Banco. I have been thus far particular in stating the contents of this ancient Roll, as those of the 8th, 10th, and 31st years of Edward I. are also Rolls of Common Pleas, containing the same matter, and generally held before the same Justices. The Roll of the 31st year is entitled "Essonia et Placita coram Justiciariis de Banco." I have also found Rolls of Common Pleas interspersed amongst the Memoranda Rolls of the succeeding Reigns.—There is another species of Rolls here, differing as well from the preceding, as from the Memoranda Rolls. These are Rolls of Pleas and Proceedings held sometimes in Parliament, and at other times in various parts of the Kingdom, before the Chief Justiciary or Governor of Ireland, who made frequent Circuits through the Kingdom, for the purpose of administering Justice, similar to the Justices Itinerant in England during the same period. The Roll of the 28th Edward I. commences, "Placita de Parliamento Dublin, a die Pasche in quindecim dies, anno Regis Edwardi 28." There are also several Entries of "Placita de Parliamento, coram Johanne Wogan, Capitali Justiciario et aliis de consilio." This was similar to the practice in England, where sometimes cases of weight and nicety were tried, both before and after the Conquest, in the King's Courts, held before himself in person, at the time of his Parliament. These Rolls are well worthy of investigation.—There are also Rolls of "Placita querelarum Assizarum, &c. coram Johanne Wogan apud Dungarvan," and the like in many other places throughout the Kingdom. The Rolls of the 33d, 34th and 35th Edward I. are of the same nature; "Placita coram Johanne Wogan Justiciario Hibernie;" and sometimes "Coram Edmundo Botiller Custode Hibernie." There are several other Rolls of a similar nature in the succeeding Reigns. Why these Rolls, which did not originally belong to the Exchequer, were deposited amongst its Records, will appear from Madox's History of the Exchequer, vol. ii. p. 25. He says, "The Exchequer was the great Repository of the King's Records; thither the Records of the Court holden before the King, of the Court of Common Bench, and of the Justices in Eire, were brought to be laid up in the Treasury there;" and to prove this, he quotes several instances in the reign of Edward I. But he adds, "I need not go about to prove by ancient Records that the Treasury of the Exchequer was a Repository for the Rolls and Records of the several Courts above mentioned; the matter is evident of itself; for at this day we find the ancient Rolls and Records of the Court held before the King, of the Common Bench, and the Justices Itinerant for Common Pleas and for the Forest, deposited and still remaining in that Treasury, under the custody of the Treasurer and Chamberlain of the Exchequer." The same may be said of the Exchequer in Ireland; which was the great Repository of the King's Records here; and this consequently accounts for the Records of the Common Pleas, and the other Rolls already described, being now found in this office. Although it is certain that the Exchequer in England did hold Common Pleas previously to the 28th Edward I, for, by the "Articuli super Cartas," made in that year, it was provided that no Common Pleas be thenceforth holden in the Exchequer, contrary to the force of the Great Charter; it does not appear that they were held so early in Ireland; it is however certain that Pleas were held in our Exchequer soon after that period, but they were generally of matters "tangencia Regem;" the Suitors were generally styled "firmarii Regis;" and the Judgments of the Barons were commonly entered "Consideratum est," &c. Vide the Memoranda Rolls passim.—Before I conclude this subject, I beg leave to recommend for consideration, the propriety of separating

the

the Rolls already described, from the Memoranda Rolls, which are the peculiar Record of the Exchequer, and to which I shall henceforth confine myself. In the first place, I shall endeavour to give an idea of their nature and the matters they generally contain; and in the next, the form which I beg leave most respectfully to propose for the Repertory or Calendar of their Contents.

The Records or Bundles made up by the Remembrancers of the Exchequer, were usually called "Memoranda" or Remembrances; it was usual to make one Bundle or Roll every year, and each Roll contained several Heads or Titles; such as, "Communia," the common or ordinary business of the Court; "Compota," or "Compoti," Accounts; "Visus," Views; and "Adventus," the coming of Accountants to the Exchequer. In the reign of Edward I., Madox cites the following Heads or Titles: "Communia, Affidationes;" under this Head are, "Visus, Dies dati," and Po' lo' s', Recognitiones, Brevia pro Rege, Precepta facta super Compota, Visus Vicecomitum, Adventus Vicecomitum super proferum suum;" and in the reign of Edward II., "Adventus Vicecomitum, Dies dati Vicecomitibus ad Computandum post proferum, Commissiones et littere Patentes, Communia, Fines, Manucaptiones, Redditus, Affidationes et Visores, Brevia directa Baronibus," &c. The same Heads or Titles are contained in our Memoranda Rolls, as may appear from the several Extracts hereto subjoined.

On these Rolls was entered a great variety of business. For instance, the King's Writs and Precepts of many kinds, relating to Revenue, Tenures, and other matters agitated in the Exchequer; Commissions of Bailiwicks, Custodies, Farms, &c.; Presentations, Admissions of Officers in the Exchequer, and other departments; Pleadings and Allegations of Parties, Judgments and Awards of the Barons, Recognitions or Recognizances of Debts, and Conventions or Agreements of various kinds; Accounts and Views of Accounts, with several Acts relating to Accountants; Inquisitions of Sheriffs, Escheators and others; and in general, all those things which were comprised under the term "Communia," or common business. Also, many Memorandums pro commodo Regis, to controul Accounts, or to save the King's rights, &c. They also contain many other particular matters, which cannot be classed under any of these Heads; from which it appears to me, that the Memoranda Rolls of the Irish Exchequer are of a more miscellaneous nature than those of the Exchequer in England, at least as far as the latter have been described by Madox.

In this great variety, the several Articles under one Head or Title differ very much in point of form from those contained under another; it therefore follows, that however desirable uniformity may be in framing the Calendar of their Contents, there must necessarily be a great dissimilarity between the Extracts under each distinct Head; the form, however, of the Abstract of any one Article may serve as a specimen or standard for the entire of the Class to which it belongs; so that, notwithstanding the dissimilarity of the several Heads, yet each may be perfectly uniform in itself; a rule which (next to brevity) should strictly be adhered to throughout the entire work. To approach, however, as near as possible to general uniformity, I would have but one line or margin in the page; for, as every article must relate either to some place or person, whichever it so relates to may be inserted in the margin. This will be by far the most simple, and consequently the most desirable form to be adopted, and to which all Classes, however differing from each other, may be reduced. The insertion of the name of the Article itself in the margin (except perhaps in Grants, and other matters occurring under the mixed head "Communia") will be rendered unnecessary by the preservation of the different Titles, which must be adhered to. I had for some time entertained an idea that every Article on these Rolls should be numbered, as in the Calendar of the Patent Rolls of Chancery; but as there are generally several Articles on each Membrane, and many hundreds, nay often thousands in the same Roll, the form of the Record itself, which is sewed up like a book, suggested that referring to the Stripe or Membrane by having it numbered, would be fully sufficient, and as complete and ready a mode of reference as from an Index to a page in a printed book. I would therefore have the number of the Membrane put immediately after the first Article occurring on it, and the number of the succeeding Membrane after its first article, and so throughout the entire Roll; by which means a multiplicity of useless figures would be avoided.

I shall now beg leave to subjoin, under the following distinct Heads, the general Plan or Outline of the Extracts which I propose for the Calendar, viz.: 1. Proffra; 2. Amerciamenta; 3. Attornamenta; 4. Rotulus Placitorum; 5. Communia de termino; 6. Memoralia debita; 7. Commissiones et Littere Patentes; 8. Universa Regem tangencia; 9. Brevia Regis; 10. Brevia de Anglia; 11. Brevia Communia; 12. Status et Visus Compotorum; 13. Rewarda Concessa; 14. Adjornamenta, datus est dies, &c. coram Baronibus; 15. Summoniciones exeuntes.

1. Proffra.—In all entries of Proffers, the order observed on the Rolls is according to Sheriffs, Escheators, Mayors, Seneschals, Coroners and other Officers. As the articles are in general short, they do not admit of much abbreviation, but they may however be abstracted so as to avoid needless repetition. Opposite the first entry of each Class of Officers, the name of the Office might be inserted in the margin, and omitted throughout the remainder of that Class; and after the first entry of each it would be superfluous to retain more than the Names of the Person and Place, and the amount of the Proffer, as in these Examples:—

Proffra

2. AMERCIAMENTA.—Amercements of Sheriffs and other Officers for not accompting or paying their tots.—The extracts from this Class must be somewhat longer, and more various than those from the Proffers, because the nature of the default, for which the Officers happened to be amerced, is generally set down; and as the different Offices do not follow in the same order as in the Proffers, but are entered promiscuously as the default occurred, the same brief mode of extracting cannot in all cases be observed in both, the place must therefore in all instances be put in the Margin, and after the first Article the succeeding extracts may be considerably abridged; thus,—

	Amerciamenta Vicecom', Esc', Major', &c. &c. in termino, &c.	
Dub'.	De Ric' Costantyn Vic', quia non ven' primo die ad proffrū suū faciend' -	10s.

3. ATTORNAMENTA, or, Appointments of Attornies, generally distinguished by the words, po' lo' suo'—ponit loco suo—will be found mostly entered together on the back of each Membrane. These articles are generally short, and with few exceptions uniform; the surname of the person appointing the Attorney may be put in the margin. The following Extract will answer as a general Example of this head, with very little variation:—

	Attorn' ——— Attorn'
Blond.	Rob' fil' Wil' le Blond de Kilkenn' po' lo' suo Wil' de Catham v' Ph' Bolle.

4. ROTULI PLACITORUM.—Rolls of Pleas.—The several Articles contained under this voluminous head will be found to vary considerably both in form and substance, and as very few of them can be said to be exactly similar, no particular standard or form can be laid down for the Extracts; much must therefore be left to the judgment and discretion of the person forming the Calendar. It would, however, be desirable in all cases to insert in the Margin the name of the principal party in the Article, and under it, at a small distance, the county or place to which it relates. In order to give a general idea of the form and appearance of those Articles, I subjoin the following Entry of a short Pleading taken from the Roll:—

	Rotulus Placitorum, de termino Mich' &c.—1 Edw. II.
Hen' de Cruys.	Md' q̄d cum Hen' de Cruys, accusatus fuisset de eo videlt. q̄d idem Hen' quasdam domos, que fuerunt Hen' de Rochefort, in O Kethy, que devenerunt ad manus ipsius Hen', rōne

Venit hic p̄d' Hen' die, &c. et omnia premissa dedicit, et petit q̄d inquiratur, et habet inde diem in Crastino Sancti Jacobi.

5. COMMUNIA DE TERMINO.—The common business of the Term committed to writing.—Under this head will be found Inrolments of various kinds, viz. Letters Patent, Writs, Liberates or Orders to the Treasurer or Barons of the Exchequer, for the payment of Money; Oneranda of Sheriffs, marked, O. Ni. which denoted Oneratur nisi habet sufficientem exonerationem; Exoneranda of the same; both which latter species of Inrolments are generally long, and must be briefly extracted; Fines, Manucaptiones, Affidationes, Redditus, Visores, &c. all which, being different in their nature, will require each a particular form of Extract: the following is an entry of a Fine:—

	Cōia de termino Michis, &c. Anno 4 Ric' II. Regis, &c.
	Fines. Manuc'. Affidat'. Redditus & Visores.
Mid'	Johes Luttrell, nuper subserviens Wil' Weme, nuper Capital' servient' Dūi Regis in Baronia

6. MEMORALIA DEBITA.—Recognitions of Debts or Recognizances.—The name and residence of the party to whom the Recognizance is acknowledged, are generally inserted in the Margin of the Roll; the Articles are generally of the following form:—

Memoralia & Cōia debita recognita in term' S. Mich' &c.—1 Edw. II.

13 die Oct' ven' hic' Edward' Colet & recogn̄i se teneri Magro Walt' de Istelep, in 24s., solvend' medietatem ad festū be Mar' & aliam medietatem ad festū nat' Sci Johan' Bapt' et nisi fecerit,

fecerit, concedit q̃d de terris & ten', bon & catal' suis, ad quorumcunq; manus devenerunt, dict' 24^{s} levent'.—In this Article, as the term is invariably inserted at the top of each membrane containing these entries, the date and term for payment might be omitted; and the name of the person, to whom the debt is acknowledged, put in the margin;—thus,

Walt'de Istelep. | Edw'Colet recogñ se teneri Walt' de Istelep in 24^{s}.

7. COMMISSIONES ET LITTERE PATENTES.—These Articles, of which there are great numbers on the Memoranda Rolls, are similar to those of the same nature on the Patent Rolls of Chancery. I therefore beg leave to refer to the Calendar now forming of those Rolls, (the form of which I heretofore submitted to your consideration), as a proper specimen for the Extracts under this head; the following is the general form of these Articles:—

Commissiones & Littere Patentes, de termino Mich' Anno 4 Ric' II. Regis.

Rex omnibus ad quos presentes littere ꝑvenerint salt̃m, sciatis q̃d commisimus Will̃o Bossher ꝑ ꝑm & manuc' Simonis Nyvell & Joh̃is Whittey, Custodiam duar' Carucatar' terre cū ꝑtin' que fuerunt Ade Bossher in Bargy in Com' Weys in Manu ñra, occ̃oe debiti ꝓd' Ade capt' et existen', ħend' q̃mdiu nob' placuerit, reddend' inde nob' ꝑ an' ad sc̃c̃m ñr' Hib' extentam inde factam vel faciend'. In cujus, &c. T. Ven' Pr̃e A. Ep̃o Ossorien' Thes' ñro Hib̃n apud Cath'. 28 die April' Anno r̃ ñ quarto.

8. UNIVERSA REGEM TANGENCIA.—The Articles under this title are mostly of a public nature, and comprehend a great variety of matter and form; they should in general be abstracted very briefly, except in particular instances, where the Articles may be considered curious or interesting, in which cases it may be allowable to depart a little from the general rule of brevity; no settled form can therefore be laid down; the following is one of the shortest Memoranda, under this head:—

Memorand' q̃d xix Rotuli magni de Grossaria, in una vetere baga, xv Rotuli magni de eadem grossaria in una alia baga liberant' Joh̃i de Lidgate Grossario hujus sc̃c̃ii, Custodiend'.

9. BREVIA REGIS, or, BREVIA PRO REGE EXEUNTIA, &c.—The King's Writs and Mandates issuing upon various occasions.—These Entries generally commence with the Word "Mand'", and admit of as great a variety in substance, as the occasions upon which the Writs issued; the form, however, is generally the same, and as they are already but short Abstracts of the Originals, with very few exceptions, they cannot be much more abridged, except where the repetition of words, in the Articles immediately following each other, can, without obscuring the sense, be omitted. They are in general of this form:—

Brevia Regis, or, Brevia Retornabilia, &c. de termino, &c.

Waterford. | Mand' Majori & Ballivis q̃d certifac̃ent hic in Crast' Sc̃i Martini, de summa pecun' recepta de duob3 solidis de singulis doliis vini, &c.

Kyldar'. | Rex Vic' Kildar' salt̃m, ꝓcipimus tibi q̃d distring' Maur' fil' Tho' Comitem Kyldar' ꝑ terr', &c. ita, &c. q̃d a die pasche, in un' mens' ad Satisfaciend' nobis de omnib3 et singulis redditibus & exitibus manĥior' de Ballymadden, Ballycak, & Ballysax, ac aliis ter' & ten' cū ꝑtin' in Berton & Glasseley, de term' sc̃i Mich' ꝑx' ꝓter' in manibus d̃ci Comitis existen' &c. T. xvi. die Oct' anno R. quarto. (Rot' 5 Ric. II.)

10. BREVIA DE ANGLIA.—Entries of the King's Writs and Mandates sent from England.—In several Rolls subsequent to those of the three first Edwards, these Writs will be found entered under the heads, "De Brevibus de Anglia, & Canc' Hibn', lib' ad sc̃c̃m Dublin, termino," &c. They generally commence with the King's name, and are set out at full. In the Abstract, however, the direction, short contents, and date of the Article, in the Text, and the name of the Person for whom, or the object for which, it is intended, in the margin, will be sufficient. The following is a Copy, verbatim, of one of those Writs, and after it, the form to which it may be abridged:—

1 Edw. II.

Edwardus, &c. Thes̃ & Baronib3 suis de sc̃c̃io Dublin salt̃m. Quia constituim^{9} dilectum clicum n̄r̃m Will̃m de Moenes unum Baronum n̄r̃or' de sc̃c̃io Dublin, ad ꝑtita in eodem sc̃c̃io tenenda, & alia facienda, que ad officium illud ꝑtinent in eodem sc̃c̃io; vob̃ mandam^{9} quod ipsum Will̃m ad hoc admittatis. T. J. Wogan, Justic' n̄r̃o Hibñ xx die Octobr', anno r. n. primo.

11. BREVIA COMMUNIA.—Between this head and N° 9, or Brevia Regis, &c. there is very little difference, I therefore refer to it, as the Extracts under both must, from their nature, be nearly similar.

12. STATUS ET VISUS COMPOTORUM.—Statement and auditing Accounts of the various Officers and others collecting the Royal Revenue, &c.—These Articles are generally diffuse. They commence with the words, "Audito Compoto," and although they contain much curious information, yet care must be taken not to increase the Abstracts to too great a length. The following is a Copy, verbatim, of one of the shortest Articles of this description, and after it, the abridged form in which it may be extracted :—

6 Ric. II.

13. REWARDA CONCESSA.—Orders or Writs for Rewards, Stipends or Salaries to individuals, usually directed to Sheriffs and other Officers, in receipt of the Public Money.—These mandates are nearly similar to the Writs termed Liberates, the only difference between them being, that the latter are generally directed to the Treasurer and Chamberlain, &c. of the Exchequer. As the extracts, therefore, must be also nearly similar, I beg to refer, as before at No. 7, to the Calendar of the Patent Rolls.

14. ADJORNAMENTA, DATUS EST DIES, &c. CORAM BARONIBUS.—Adjournments, days given for appearance, &c.—These entries relate to the common business of the Pleas side of the Court, they are consequently of great variety, but how far it may be judicious to notice any part of these entries, except merely for the cause or ground of the Action or Plea, and the Parties names, I submit entirely for your consideration. The following extracts will give an idea of the general form of these entries :—

15. SUMMONICIONES EXEUNTES.—Summonses issuing on Fines and Amercements.—Of this Class it may, in the first extract, be necessary that the form of the entry should be preserved; in the remainder, the name of the person, (with the place in the margin) and the cause of the Fine, &c. briefly expressed, will be sufficient. The entries of these Articles are generally as follows :—

The foregoing Plan, drawn up at your desire, is now, with all deference, submitted to your Consideration: And I have the honour to remain,

Gentlemen,

Your obedient humble Servant,

Sub-Commissioner on the Chief Remembrancer's Office.

Special Report of Sub-Commissioners.

TO HIS MAJESTY'S COMMISSIONERS ON THE PUBLIC RECORDS OF IRELAND.

THE SPECIAL REPORT of the Sub-Commissioners on the STATUTES and ORDINANCES, &c. made pursuant to Order of the 28th of September last.

THE Secretary having communicated to us the Order of the Board, to submit our views "of what our Work is "to contain, stating the Materials, and to point out the differences between the present, and the intended Edition "of the Statutes, with the particular Improvements to be comprehended in the latter:" in obedience to this Order, we beg leave to observe, that it has always been our intention to have laid before the Board, our collection of Materials when completed, with a Report of their nature and extent; we submit it now in the form which seems to us most likely to afford the information that is desired.

The Order under which we commenced our proceedings is as follows:

"That a complete and authentic Edition of the Statutes and Ordinances in Ireland be prepared and printed, "including every law, as well those repealed or expired, as those now in force, with a chronological List of "them, and Tables of the principal matters;" in addition to which, in March 1812, we were *ordered*, "*to follow* "without any deviation, the plans of the English Statute Sub-Commissioners," and in March 1814, we were further directed to include in our Edition English Statutes, binding in Ireland, of which transcripts should be found upon our rolls, or in books of record in this country.

In order the more distinctly to afford to the Board the information they have required from us, we shall take a short comparative view of the present and intended editions, under the following heads:

1st. COMPLETENESS.—2d. AUTHENTICITY.

THE existing edition is so very far from being complete, that the Acts prior to the 10th Henry VII. are contained in 41 pages of print, while the materials newly discovered from 53 Hen. III. up to the same period of time, and hitherto unedited, will probably, as we have before * stated to the Board, exceed a folio volume.

Of these materials, by far the greater part has been furnished from the very highest sources of authority, having been transcribed from Statute Rolls existing in the Rolls Office of the Court of Chancery; most of the remainder having been discovered upon Memoranda, Patent, Close and Plea Rolls, of a date generally coeval with that of the enactments; some are from the Red Book of the Exchequer, the Black Book of Christ Church Cathedral, and the Chain Book of the City of Dublin; a very few from ancient MS. books in the Library of Trinity College, Dublin; and the important Statutes of Kilkenny are taken from an old Book that forms one of the Totness Collection of MSS. in the Library of Lambeth Palace. With respect to their nature, many of them are public Statutes; most of them throw light on the ancient Laws and History of the Land, while several afford evidences in case of Church Property, Tythes, &c. Rights of the Crown, Offices, Pedigrees, particularly in respect of Peerages; and to all of them the observation of Sir Richard Bolton, in the preface to his edition of the Irish Statutes, is applicable, that "although many may be obsolete or repealed, they may be useful for the construction of subsisting laws, and remain curious and authentic documents in the public history of the country;" to which may be added the observation of Dr. Gibson, in the preface to his Codex, "that most subsequent laws are made with reference to those which are gone before, of which they are usually corrections or improvements; from them of course the design is frequently to be collected;" besides, "Originals of all kinds are applicable to many purposes which we cannot foresee, and therefore none can determine what is useful to retain or to reject."

In addition to the omissions in the ancient part of the Work, some occur also in the modern; for instance, an entire Statute so recently as the year 1798.

As to Authenticity, the existing Edition, now nearly out of print, has no solid pretensions to it, as appears from the preface to that Edition, and more fully from the following extract from the † preface to the Statutes of the Realm.

* See our Quarterly Report of March 1816, and our Synopsis of March 1818.

† See p. XLIV. and authorities there referred to.

"The Irish Statutes were published in the year 1765, in seven volumes folio. In these volumes the Statutes to 17th and 18th Charles II. were reprinted from the Editions of 1621, 1678, and 1723, the Edition of 1752 (by Sir Henry Sydney) not being noticed or referred to. For the period subsequent to 17th and 18th Charles II., recourse was had to the Sessional Publications printed by the King's Printer. The whole Work was compiled from these sources, without variation, except that in some instances errors of the press were occasionally corrected by the Record, according as the Editor apprehended them to exist." It then states, that other Volumes were added, and in 1786 a re-publication of all the former Volumes took place, with additional ones to the 26th Geo. III.; these were subsequently continued to the Union; and the new Volumes were, we believe, printed from the Sessional Publications, as some of the former had been.

In fact the present Edition is merely the copy of a copy, which itself was never collated with the Records, and contains more errors than the Sessional Publications above alluded to, which, it may be observed, do not appear to have been printed uniformly, either from the Parliament or Statute Roll.

As might be expected from such a mode of publication, numerous minute errors occur in almost every sheet; an instance of which, on a former occasion, we submitted to the Board, when one was laid before them containing upwards of twenty corrections; in addition to which, we beg leave to state that several equally inaccurate could be furnished; that the Schedules abound with errors, not excepting those important ones of the Great Revenue Act of 14th and 15th Charles II., and of the Act of Union; and that instances of inaccuracy occur whereby even life itself might be affected.

In addition to the improvements that may be expected in the new Edition, from its being more complete than the former, it will have been carefully collated with all the original documents, by Barristers responsible for the faithful execution of the Work in all its parts; and the text will be uniformly taken from the highest authorities, the several various readings being accurately noted.

Besides the necessity of accurate collation of the Statutes with the originals, arising from the incorrectness of the present Edition, it appears to be the more requisite on account of the enactment of the 41 George III. ch. 90. sec. 9., whereby the printed Statutes of Ireland are to be taken as evidence of the Statute Law of this country in the several Courts of Great Britain; and likewise from the first Minute of the Board relating to our Work, which states, that, "for the purpose of ascertaining and preserving a Memorial of the correct and entire text of the Statute Law of Ireland, Copies of same shall be distributed throughout the United Kingdom, for custody and public inspection."

Impressed therefore with a sense of the value of an accurate collation of the Printed Statutes with the several Authorities, we have compared them with both the Statute Roll and Parliament Roll, and also with the Transmisses.

The latter document, being of a description that necessarily could not be referred to in England at all, nor in Scotland except for a very short period, is one which, from its importance in this Country, the formalities of its execution, being under the Great Seal, and also on account of its apparent superior correctness, could not, in our opinion, have been passed by with propriety in the formation of such a Work. The collation of it, while it added one third part to this branch of our labour, will we trust contribute materially to the authenticity of this Edition.

With respect to conformity with the Statutes of the Realm, we have invariably attended to the Order of the Board, and trust that our work will be found to correspond in plan with the authentic Editions now publishing in England and Scotland, and to form a suitable part of this great National Publication.

The materials for this Work, as we have already stated to the Board, are now nearly prepared; the formation of Catalogues, Tables, and Marginal References, and the supplying of all matters which are necessary towards the insuring of complete accuracy, having been deferred to the printing of the Work; at which period alone they can, in our opinion, be properly executed.

From this Report the Board will perceive that the object of our attention has been to lay before them, in the first instance, the entire Work complete; and that we could have proceeded to the press with a part, at a very early period, had we either postponed the publication of the first Volume, commencing with the more modern Statutes, as appears to have been done in Scotland, or given in the first instance our undivided attention to the first Volume, as has been the case in England; but, in addition to other reasons dissuading us from either course, the state of our Repositories, at the time we commenced our labours, rendered it impossible even to form a guess at the quantity or nature of the materials of which the first part of the Work would be eventually composed, or whether they would occupy a Volume, or more, or less; and with respect to the latter Volumes, the Imperial Statutes of the corresponding periods had not been published in England, to the plan of which it was our duty to conform ourselves, under the Order in the commencement of this Report referred to.

The mode we pursued under these circumstances will, we hope, meet the approbation of the Board, as it has tended to uniformity in the Volumes, lessens any chance of Cancels in the printing, and prevents delay in the progress of the Work.

THIS Report having, from our anxiety fully to obey the Order of the Board, necessarily extended to considerable length, we beg to submit the following short Summary of it, in correspondence with the three branches of the above Order.

First, As to what our Work is to contain. It is to contain, to the best of our powers and means, a complete, correct and authentic text of the Statutes and Ordinances of Ireland, with a Chronological List of them, and Tables of the principal Matters, and also with marginal Notes, as well of the general import of the Text, as of reference to amending, repealing, or continuing Acts to the present time; and at the bottom of each page, the various readings that appear on the different Records which have been collated.

Secondly, As to our Materials. These, in addition to the Acts already in print, consist of some hundreds of Acts and Ordinances, transcribed from all the Records to be found in our Archives, and afterwards repeatedly collated with the Originals; and in a few instances, when the loss of the original Record rendered secondary authority the best attainable, we have availed ourselves of such, when we were so fortunate as to discover it in ancient Books or Documents preserved unsuspiciously in public Repositories, taking care to give our authority at the head of the Article. We have besides collected materials for noting the various action of subsequent Statutes upon prior ones, down to the present day.

Lastly, As to the differences between our Work and the present Edition, which we hope will also be found improvements, they are, that it will contain a considerable number, probably a Volume, of early Acts and Ordinances which the present does not contain;—that it will also, in the more modern part, include several Acts which are omitted in the present;—that it will be the result of actual repeated collation, line by line, with the original Records, which the present does not pretend to be;—and finally, that it will furnish, which the present does not attempt, the various readings of the different Records.

All which is respectfully submitted, this 1st day of February 1820.
